# Product Usage

| | |
|---|---|
| ALLOY | Sn45 / Pb55 |
| N.W. | 100g |
| WIRE DIAMETER | 0.3 / 0.8mm |
| PACKAGING SIZE | 54.99x27.44mm |
| PRODUCT TYPE | Tin wire |
| COLOPHONY PERCENTAGE | 2.25% |

## ▼CHARACTERISTICS

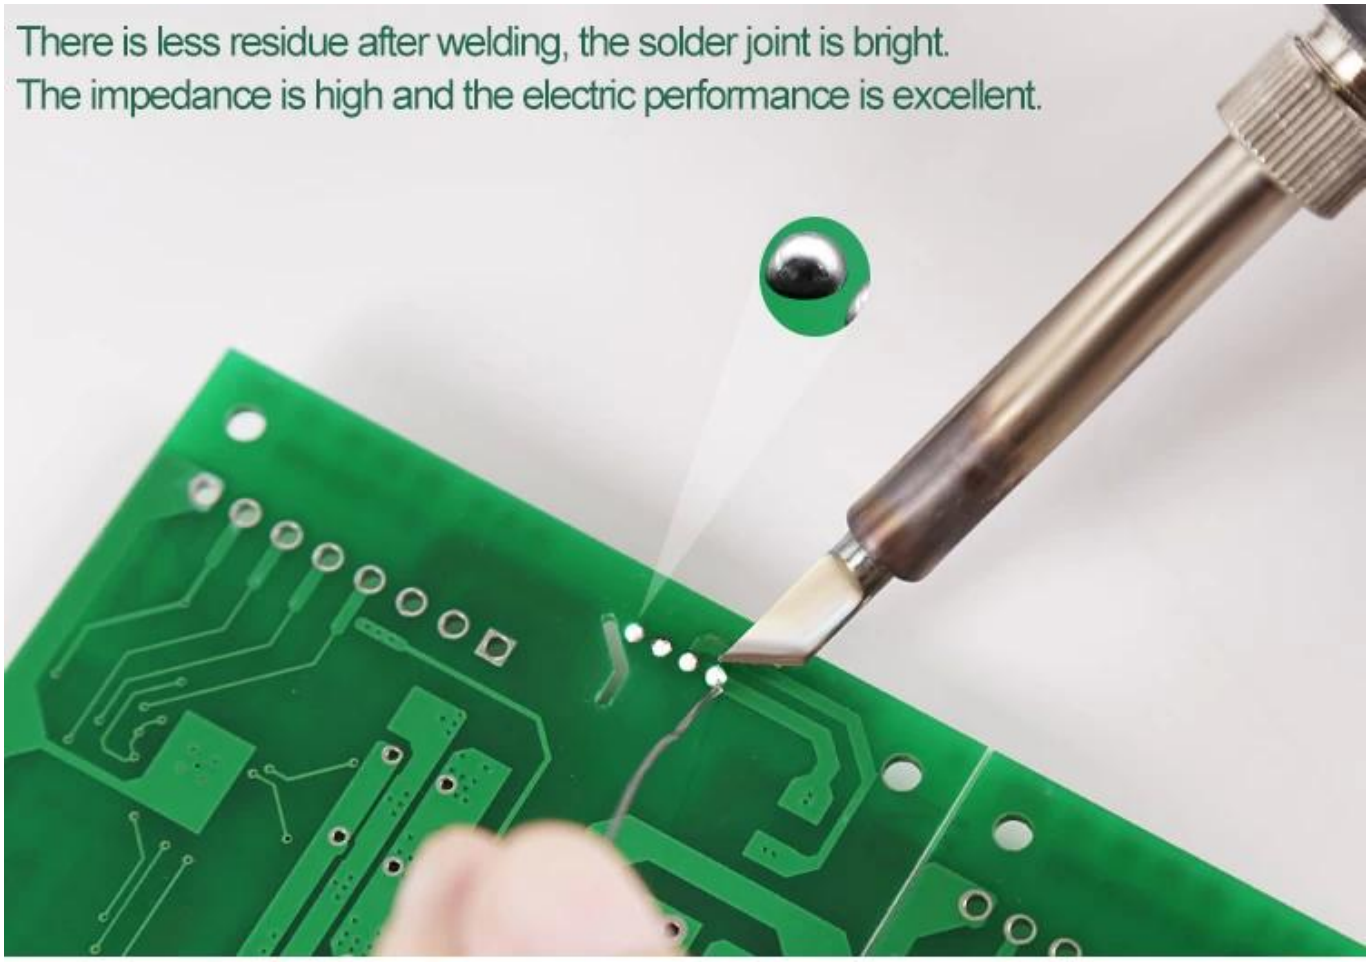
This product can be used for welding variious products. It has 45 percent high purity tin, low melting point, fast welding, good fluidity, neat coiling and smooth surface...

# PRODUCT INFORMATION

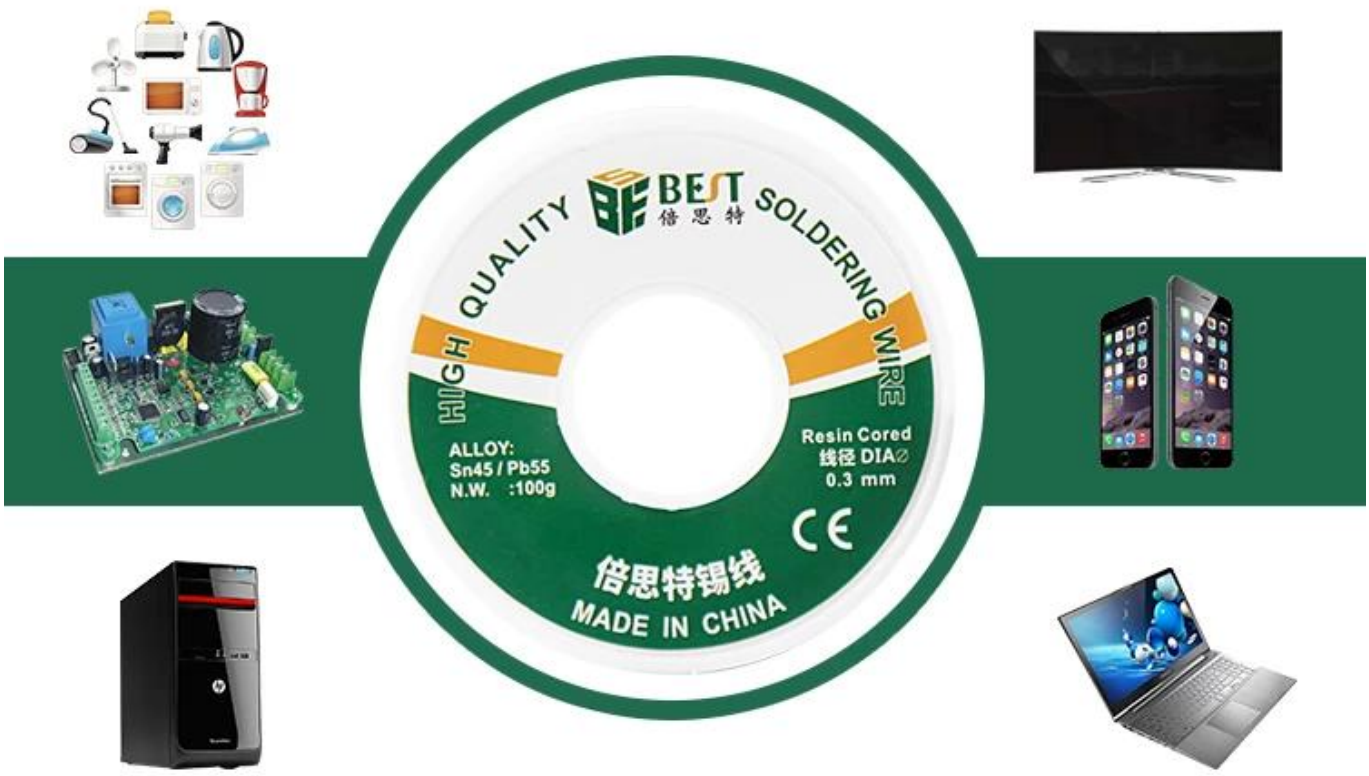
SMOOTH SURFACE AND EVEN DISTRIBUTION OF ROSIN IN THE LINE

## GOOD RESISTENCE, NEAT WINDING

There is less residue after welding, the solder joint is bright.
The impedance is high and the electric performance is excellent.



## CAN BE USED FOR WELDING A VARIETY OF PRODUCTS

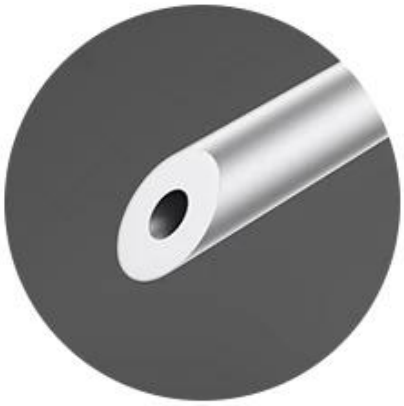


## PRODUCT SIZE

54.99mm

27.44mm

## Wire diameter 0.3mm



## Wire diameter 0.8mm
