feature1	Adopt sensor close loop,microcomputer control the temperature,LED display
feature2	High-power,rapid heating,accurate and stable temperature
feature3	The airflow is adjustable,the wind is heavy but soft
feature4	The system starts working quickly only by holding the handle . Put the handle on the frame,the system will turn into the energy saving standby state.Convenient for real-time operation
feature5	Intelligent cooling system. When temperature is down to 100°C,it turn into energy saving state which can prolong the service life of the heating element and protect the hot air gun
feature6	Adopt small crust design,it's durable and handsome, occupy little place.Brushless blower with long working life and low noise
feature7	The solder iron heat rapidly, and can be back to temperature quickly,which is good for lead-free soldering

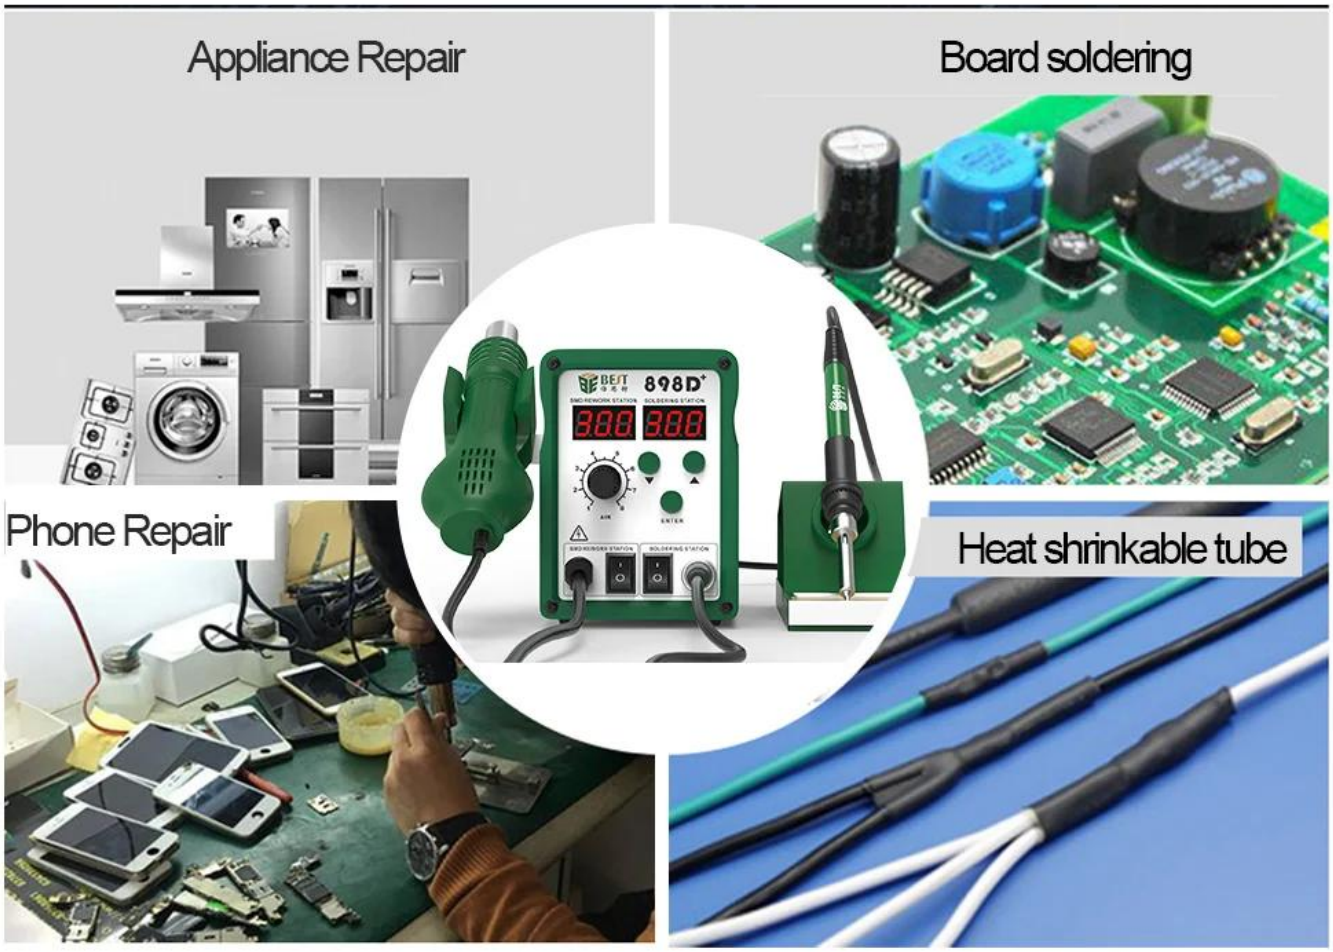
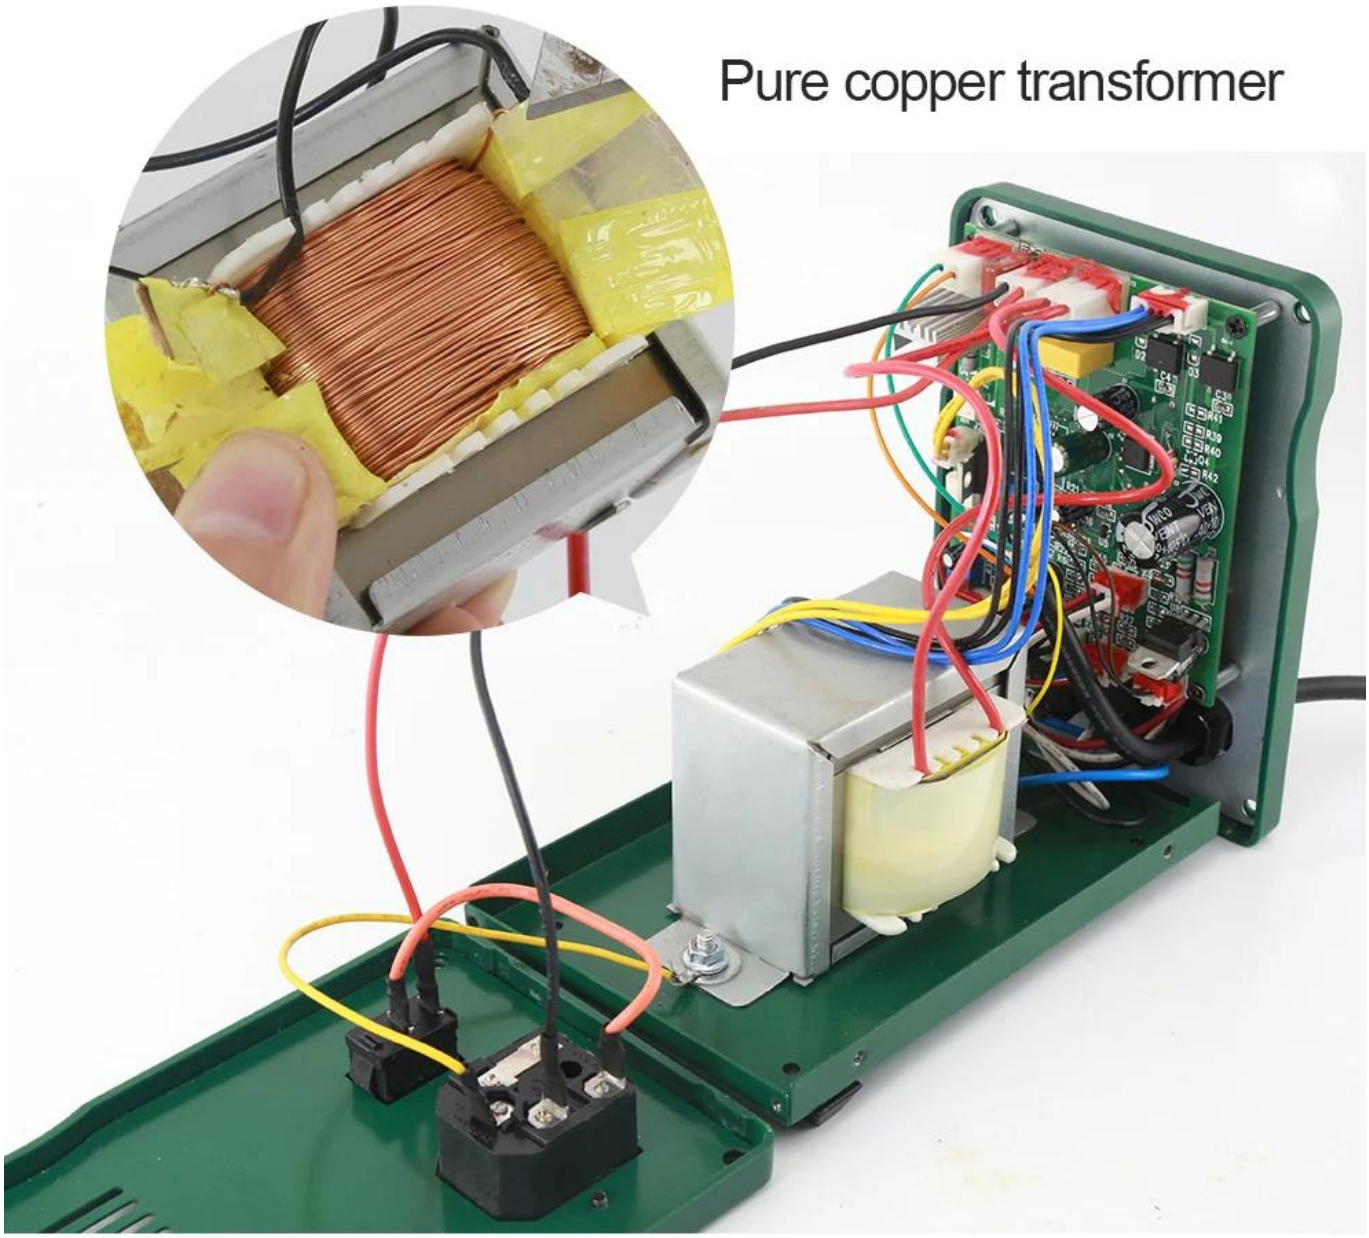
2 in 1 digital display lead-free helical wind hot air soldering station



PRODUCT SIZE

PRODUCT DETAILS

Brand:	BEST	Name:		2 in 1 digital heat gun rework station
Model:	BST-898D+	Rated voltage:		AC 110/220V 50/60HZ
Rated power:	720W	Airflow:		120L/min (Max)
Air gun temperature range:		100 ° C - 450 ° C		
Soldering iron temperature range:		200 ° C - 480 ° C		
Weight(including packaging):	2.75KG	Size:	Packing:	L265*W170*H145mm
			Machine:	L98*W140*H132mm
Accessories:	898D+, wind gun nozzle 5, 8, 10mm, soldering iron frame, power cord, air gun handle, soldering iron handle, wrench, starter			
Features:	1. 1. LED air gun temperature display and soldering iron temperature display, temperature is accurate and stable, clearly visible			
	2.Imported ceramic heating core, the handle is made of high temperature resistant silicone wire.			
	3. When the air gun is placed on the bracket, it will automatically enter the cooling and cooling standby. When the air gun is picked up, it will heat up quickly.			
	4. High power, fast heating, anti-static, temperature adjustable			



Pure copper transformer
