Modelo: G600
Ampliação da ocular: 2X
Ampliação objetiva: 300X
Ampliação do instrumento: 600X
Peso: 850 (g)
Pixels: 3,6 milhões de pixels
Exibição: display OLED 4.3inch
Ampliação: 1-600X
Distância do objeto: 15mm ao infinito

PRODUCT DISPLAY

HD digital microscope

- ☑ Taking pictures
- ☑ Recording
- ☑ Support TF card
- ☑ Adjust LED lights

Brand:	BEST	Model:	BST-600T	Display:	4.3 inch HD display
Pixel:	3.6 million pixels	Multiple:	1-600 times	Weight:	485G
Object distance:	15mm to infinity (different object distances correspond to different multiples)				
Battery:	lithium battery, can work for more than 6 hours				
Accessories:	1. Mirror host, 2. US standard 5V power supply, 3.C7 micrometer, 4. Special lifting bracket, 5. Manual, 6. Carton packaging				
Application range:	Electronic maintenance, precision inspection, scientific and educational microbial analysis, textile prints, jewelry antiques, skin detection, hair analysis, etc.				

PRODUCT DETAILS

8 LED lamps(long service life)

This microscope is equipped with a universal gimbal that is very light and powerful and can be attached to any surface, including glass, ceramic, marble, wood, plastic and other

The magic silicone suction cup will not leave any trace on the surface of any material. When the silicone suction cup is used for a long time, the viscosity will be weak. Don't worry, you can restore the viscosity by washing with water.

Built-in large capacity lithium battery

It takes about 4 hours to fully charge and more than six hours to work continuously.
