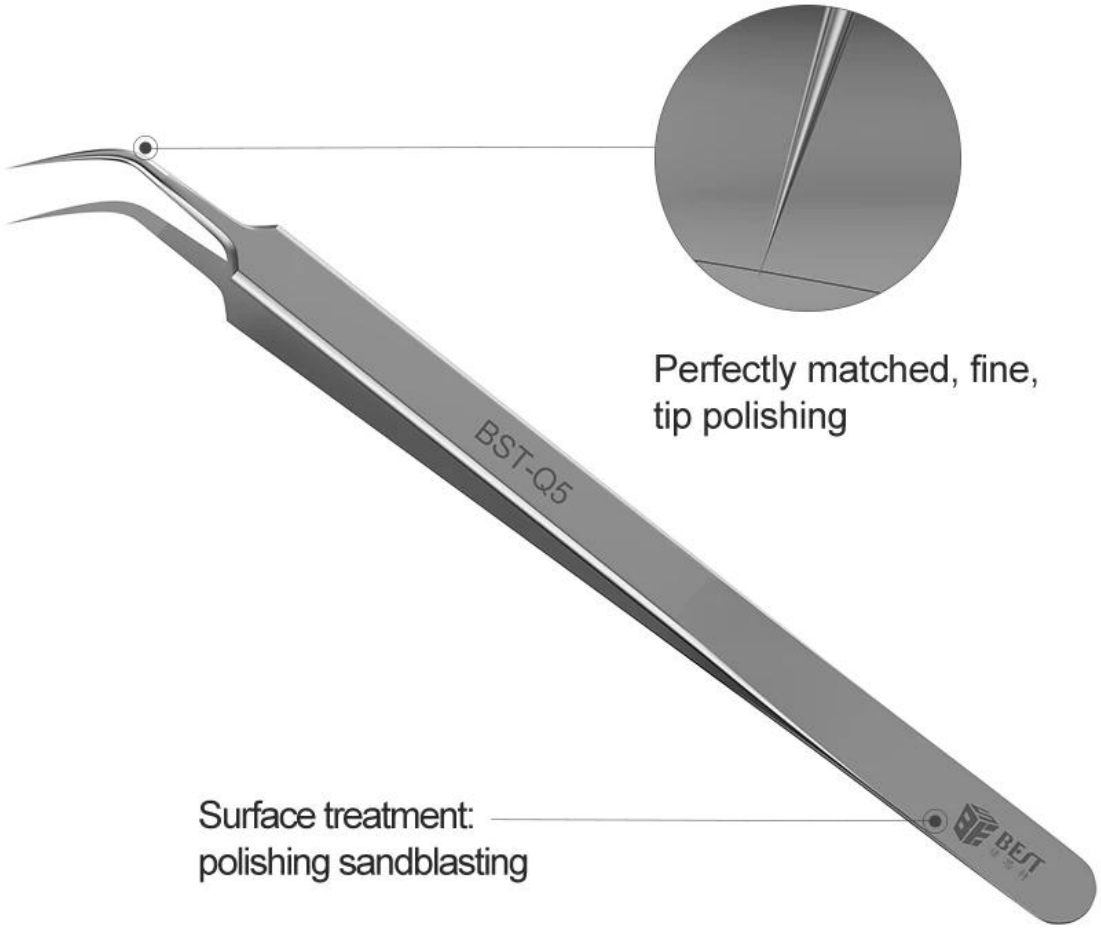
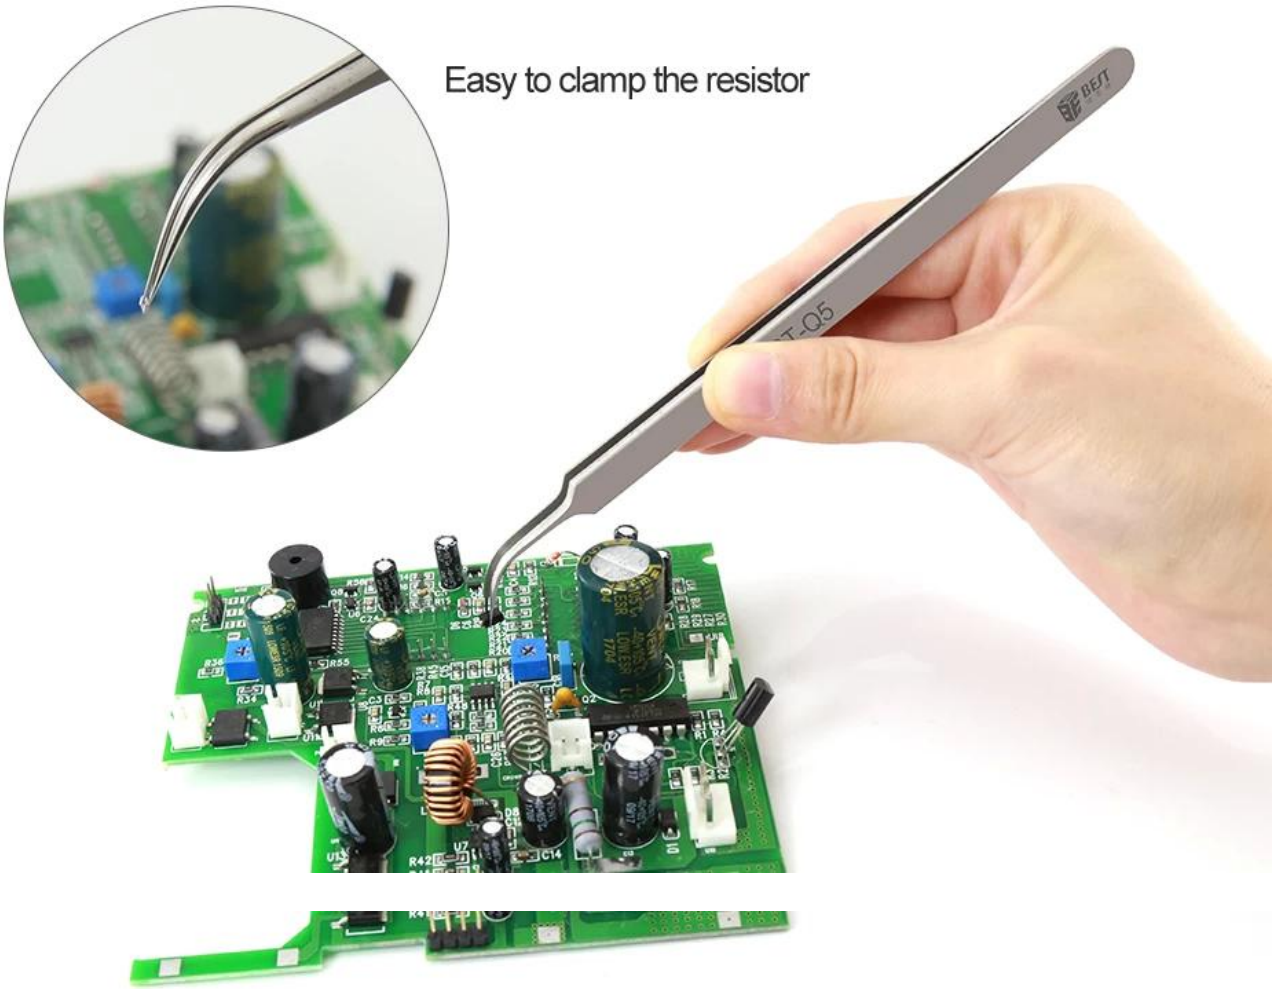
PRODUCT FEATURES



Model:	BST-Q5	Brand:	BEST 倍思特	Weight:	24.4g
Size:	157mm*10mm	Material:	202 stainless steel		
Surface treatment:		Fine polished sandblasted finished, tip polished.			
Features:					
This precision tweezers is highly anastomosing, anti-acid, anti-corrosive,					
anti-rust durable and heat resistent.					
BST-Q5 is suitable for the precision work of PCB semiconductor,					
photovoltaic, microelectronics,etc. And also can be used in aerospace,					
automotive manufacturing.					



Easy to clamp the resistor
