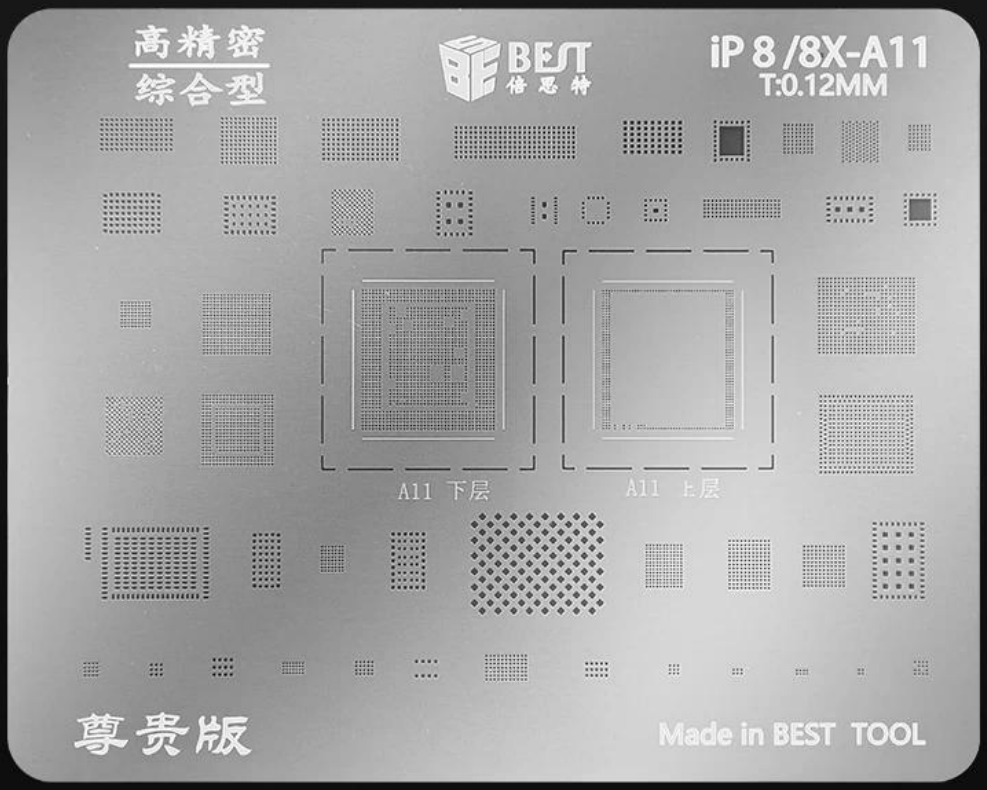
HIGH TOUGHNESS

BGA IC

Soldering Reballing Stencil

iP 8/8X-A11

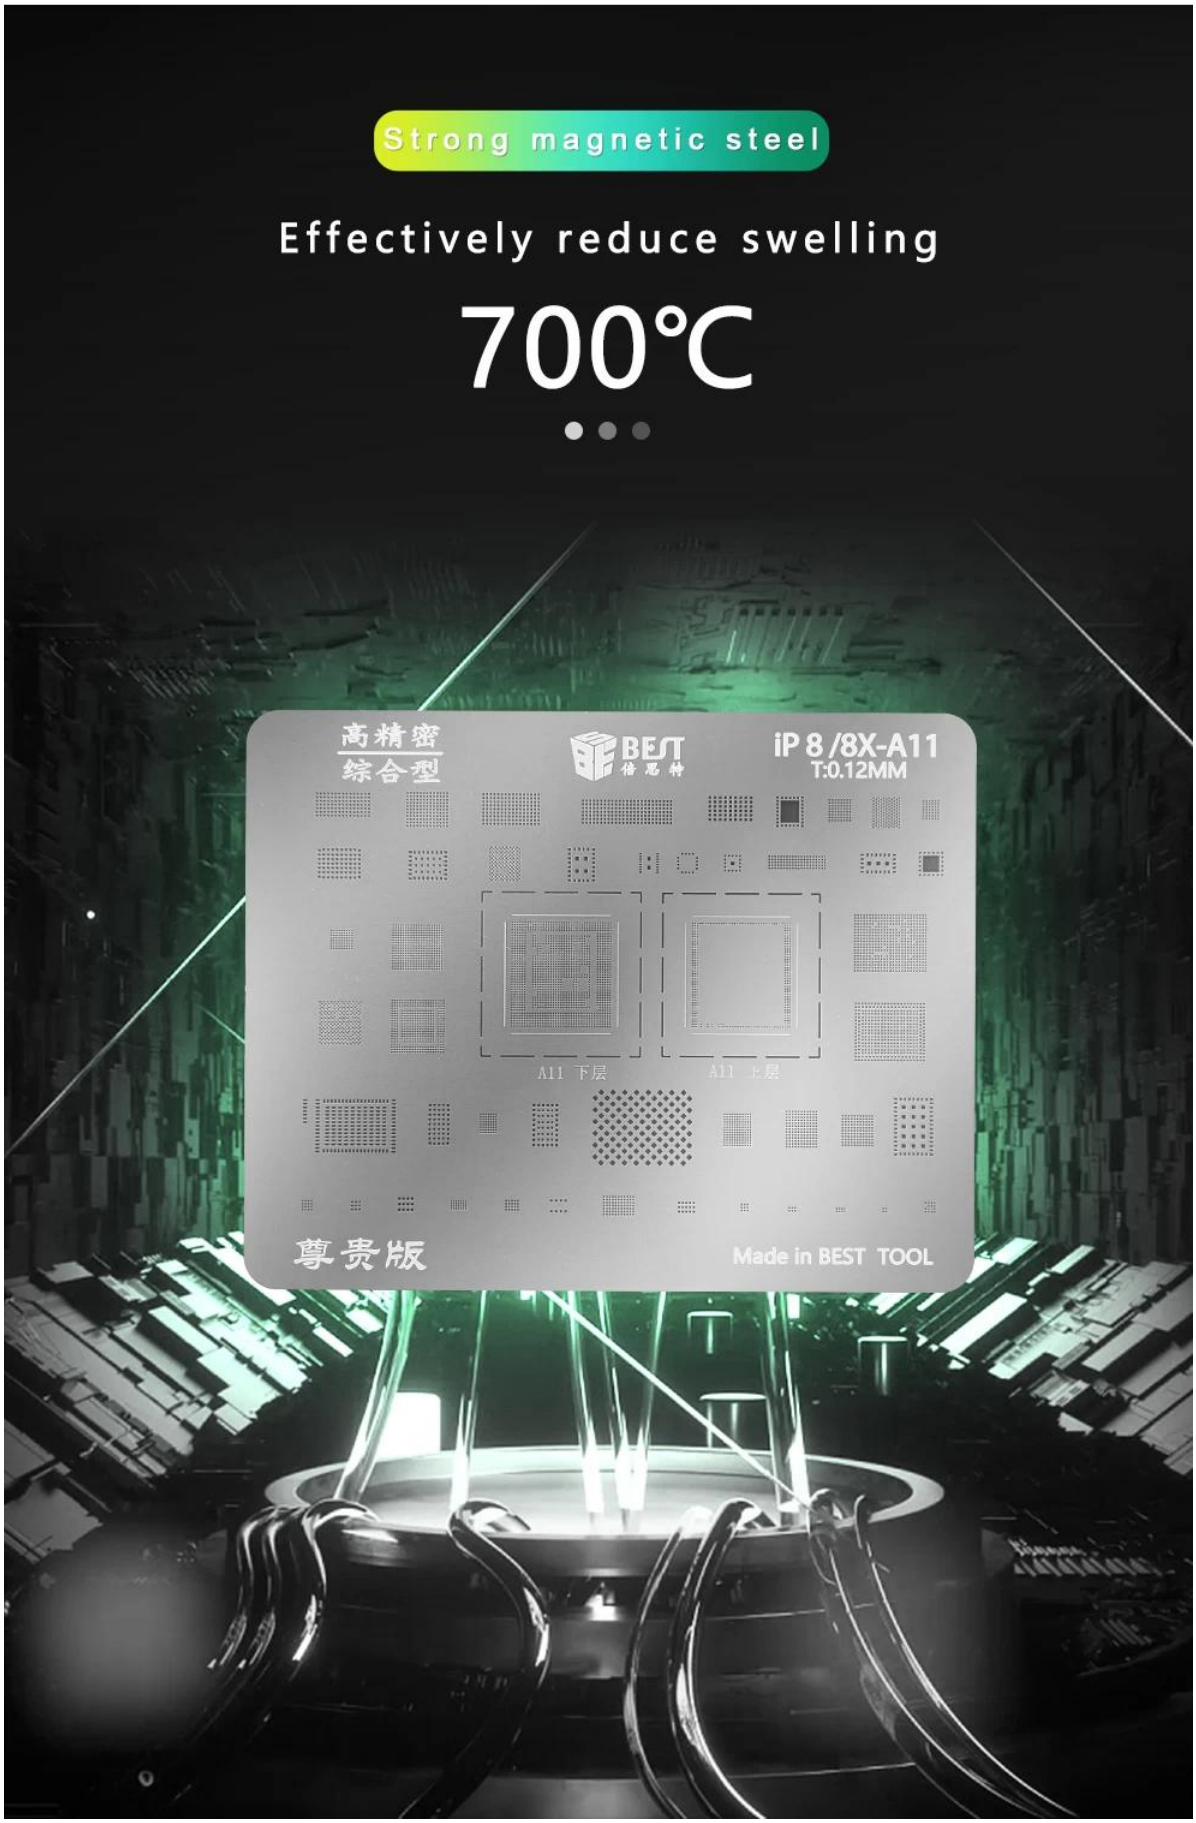
Strong magnetic steel



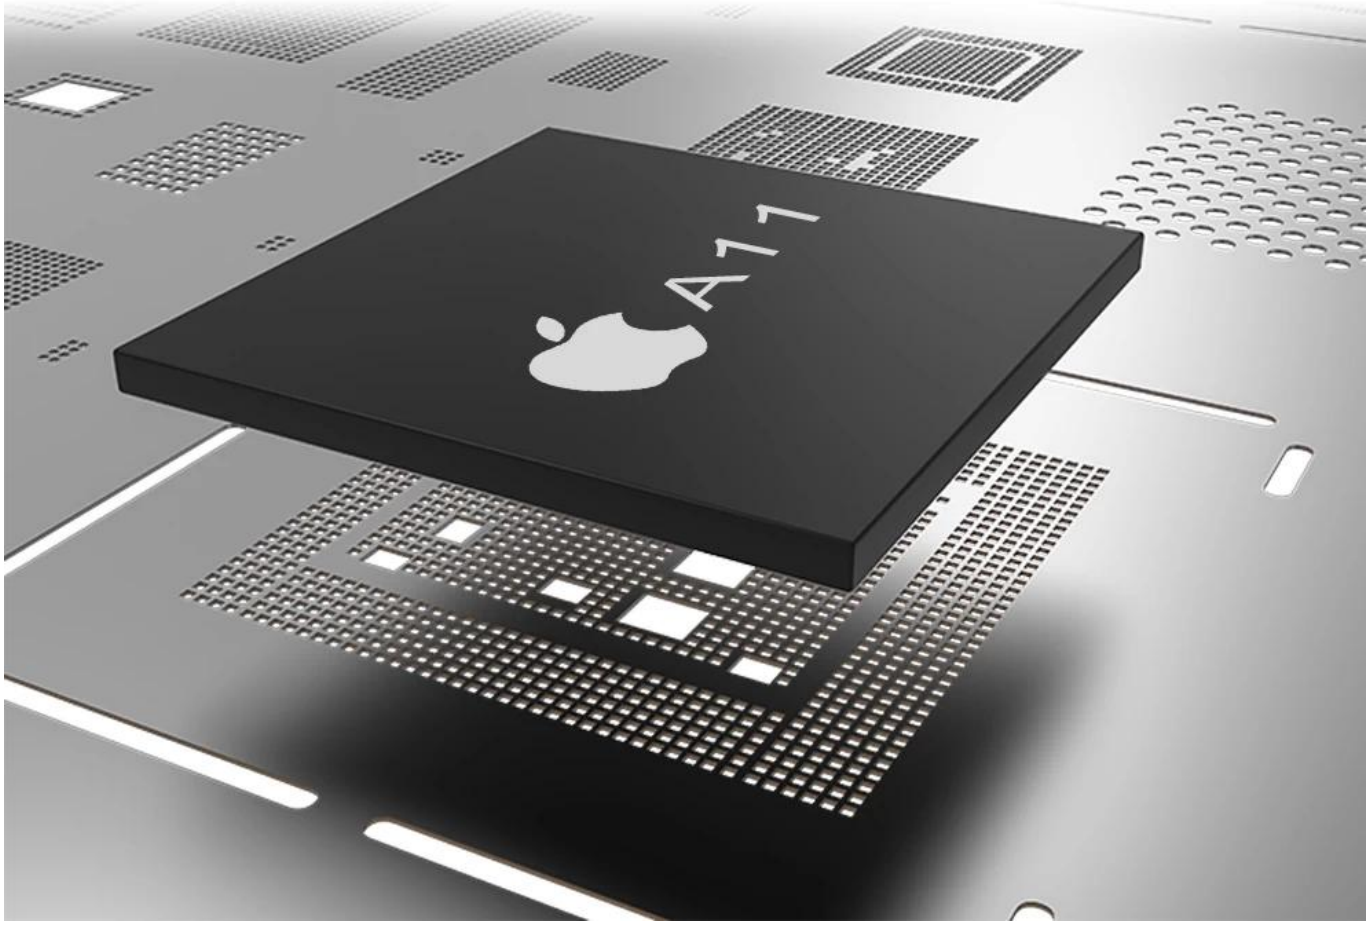
Product Usage

Model NO.	iP 8/8X-A11
Name	Reballing Stencil
Material	Strong magnetic steel
Melting point	700℃
G.W.	12.9g
Size	3.36*4.30 in.

PRODUCT INFORMATION



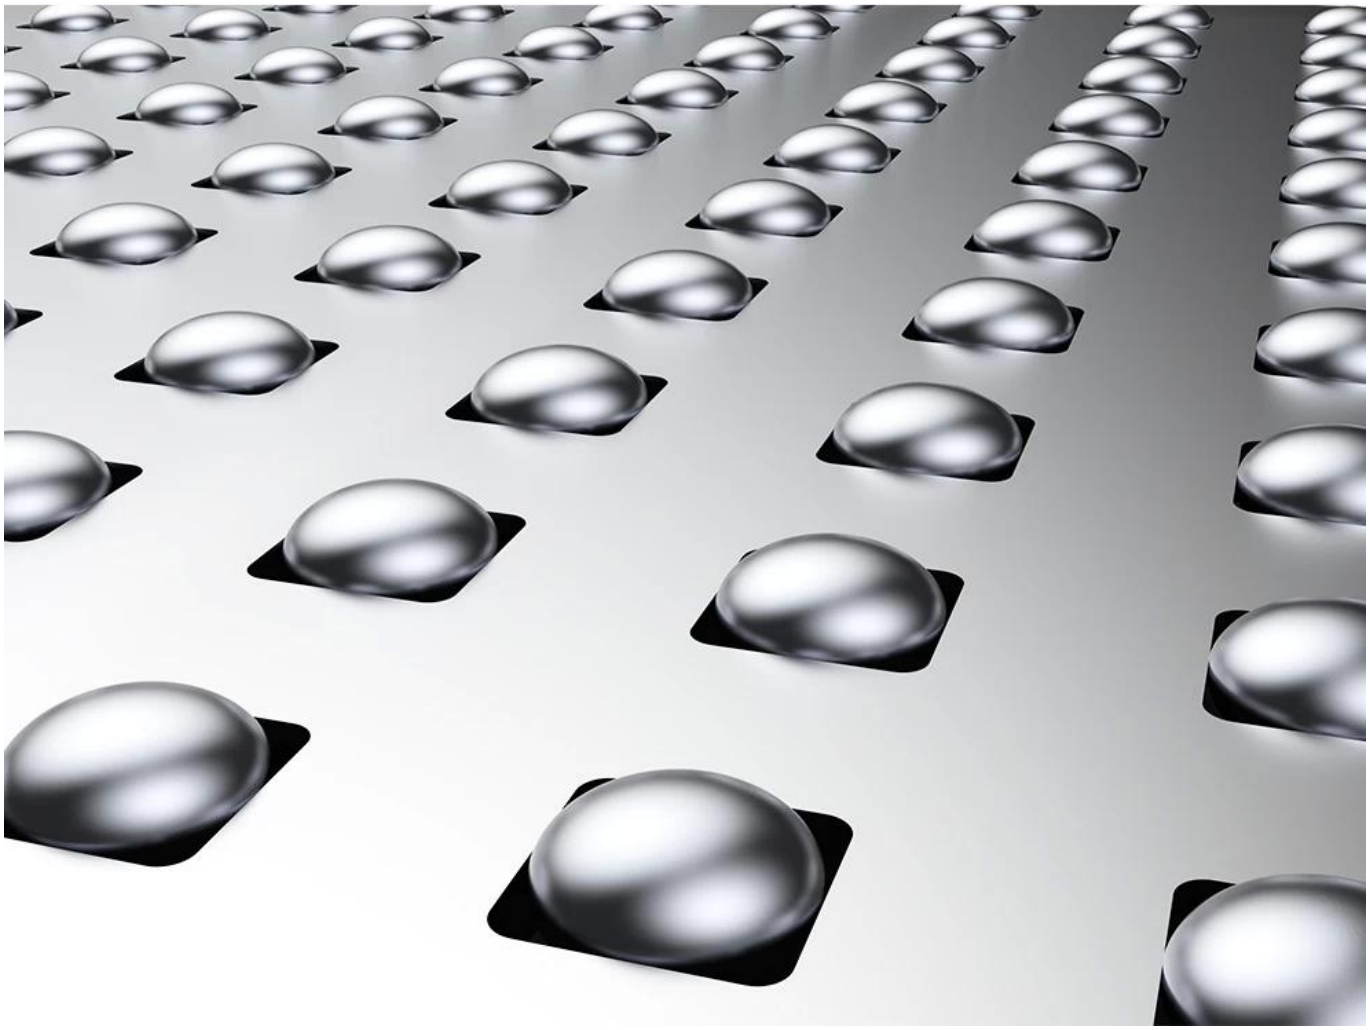
Easily mounted on the steel mesh to make the chip fit more closely with the mesh Therefore.



Hard and wear resistant
vertical hole position, no burr

Precison Reballing Stencil

Tin point is neat and tidy

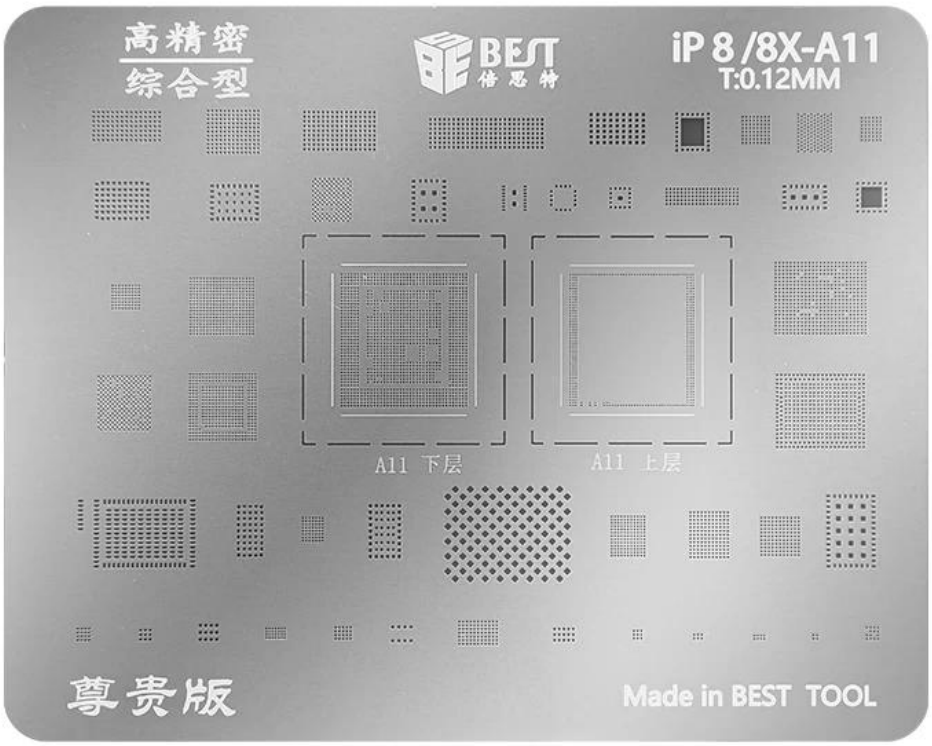


Product List

N.W.:6.9g

3.89 in.（98mm）

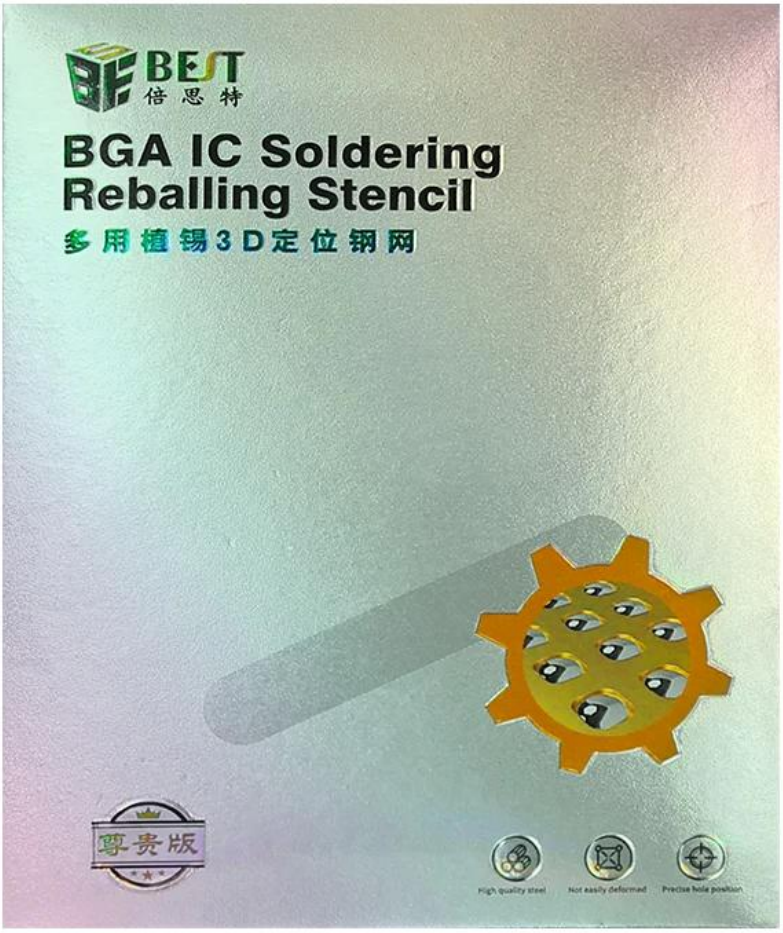
3.10 in.（79mm）



G.W.:12.9g

3.36 in.（85mm）

4.30 in.（109mm）



Thin to 0.12mm

Precise die-casting Iform heating

Not easily deformed and scratched
