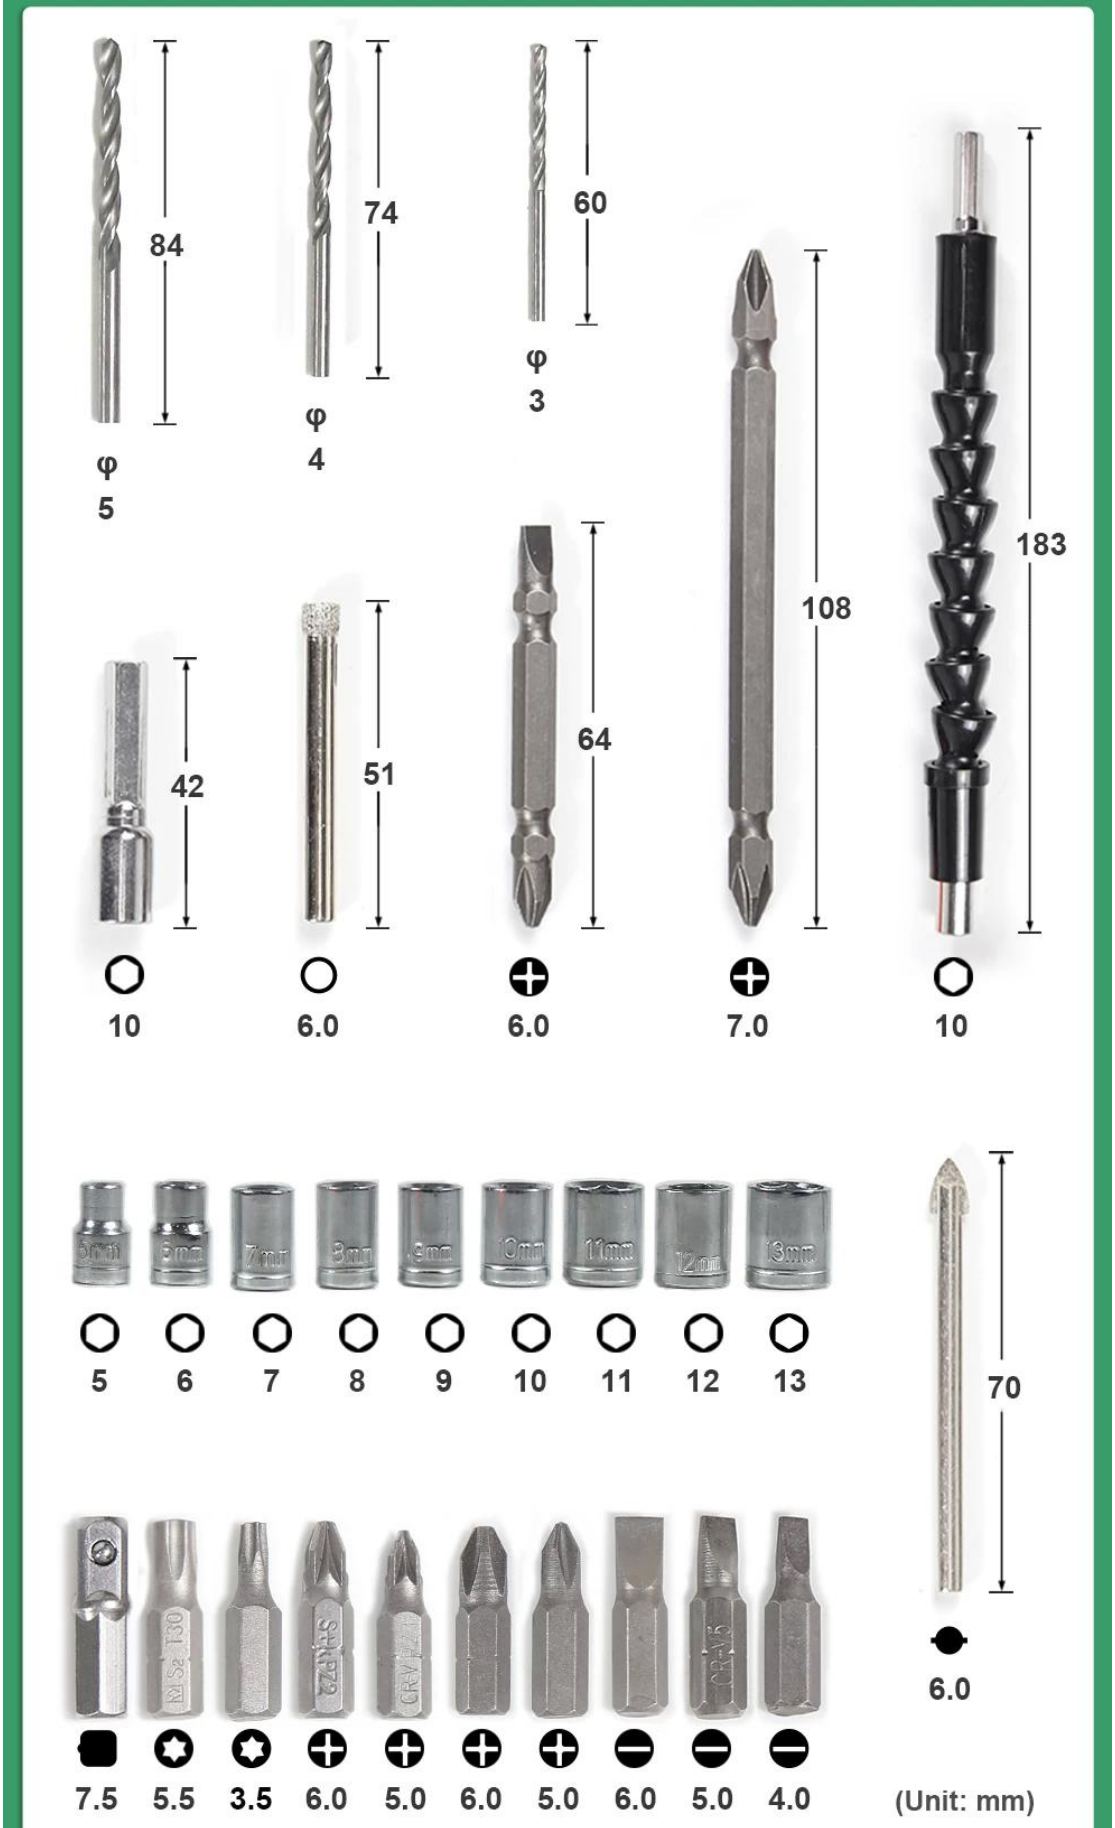
Accessory parameters



Multifunctional Industrial electric drill

25 gear adjustment

Eight core upgrades

25 gears
Torque adjustment

Three-jaw self-locking

Hardened gear

Impact function

Steering adjustment

Stepless speed regulation

Pure copper motor

Long use time

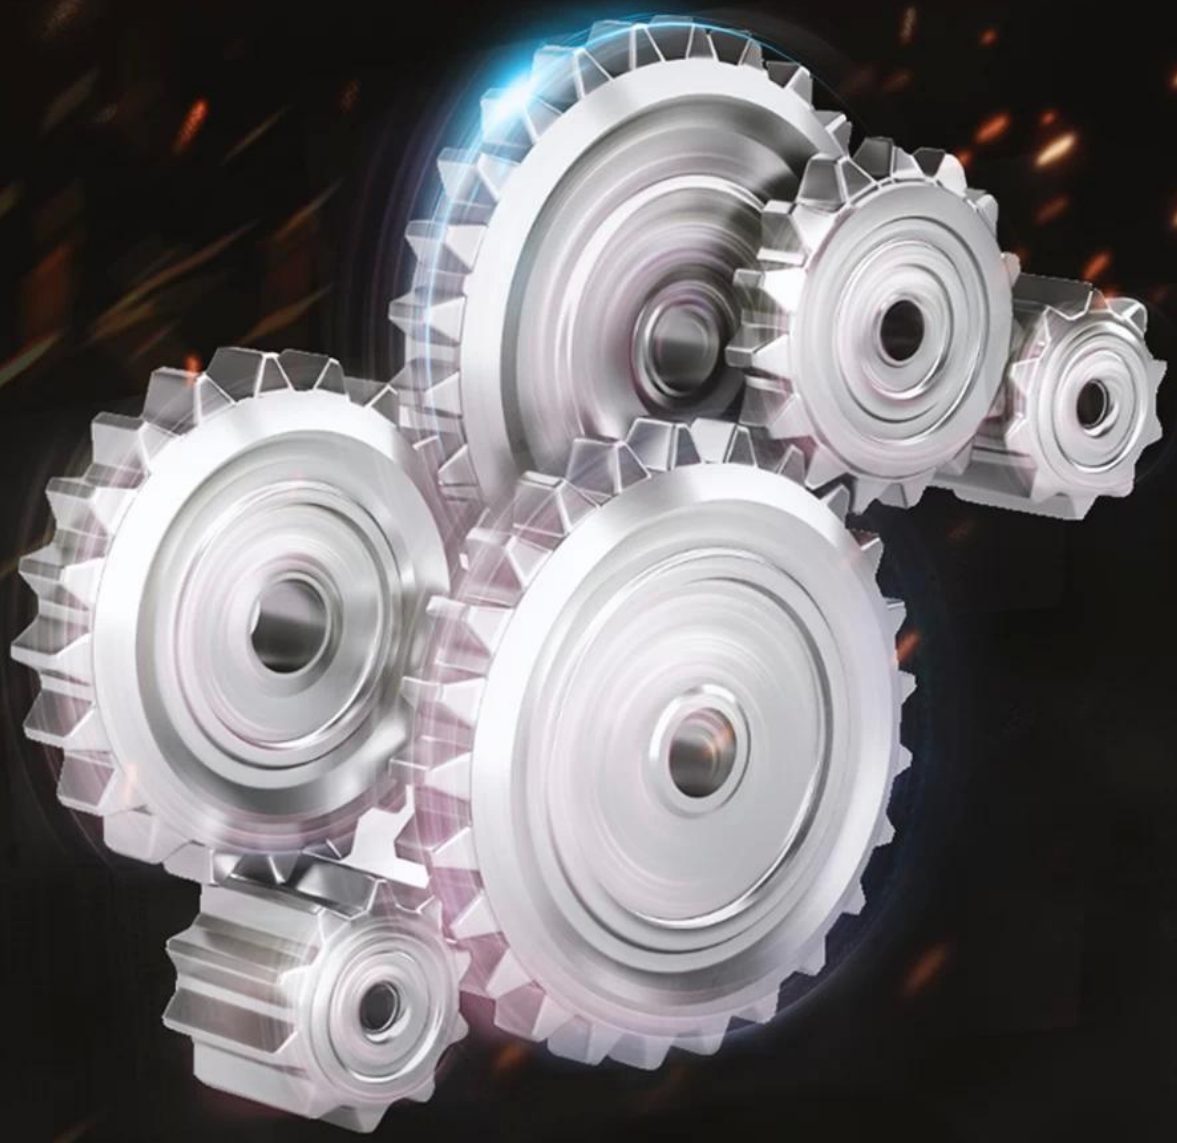
Can be applied to various venues

·High-power pure copper motor

·Powerful three-dimensional heat dissipation

Alloy forged steel gear

Secondary quenching, higher strength.



Two speed adjustment

one machine multi-function 25+3 torque

·1st gear low speed suitable for screwing

·2 speed high speed for drilling

Forward and reverse rotation can be switched at one touch
LED lighting
can work in dark environment
Forward
Reverse
The speed varies according to the press

Three functions easily switch

IMPACT FLAT DRILL START SCREW

Large capacity lithium battery
Can work for a long time
18V
LI-ION
BATTERY

Configuration resolution

Turn the chuck counterclockwise to close

Turn the chuck clockwise to open

Product parameters

Brand	BESTOOL	Model	18V
Torque	28~35N·M	Gear	25+3
Motor	Pure copper motor	Rotating speed	0~1350r/min
Features	Impact、Flat drill、Start screw	Carbon brush	Integrated copper powder carbon brush
Battery	4*1500mA lithium battery	Clamping capacity	0.8mm~10mm

*Manual measurement may have 1~2cm error
