

BEST soldering aid Colophony/Colophony/Quantity Enough/High Purity good Welding partner

**Product Description :**

Applicable to the general instrument and meters, copper tin iron and other metals welding.

Easy to carry, easy to use. Easy welding, good insulation

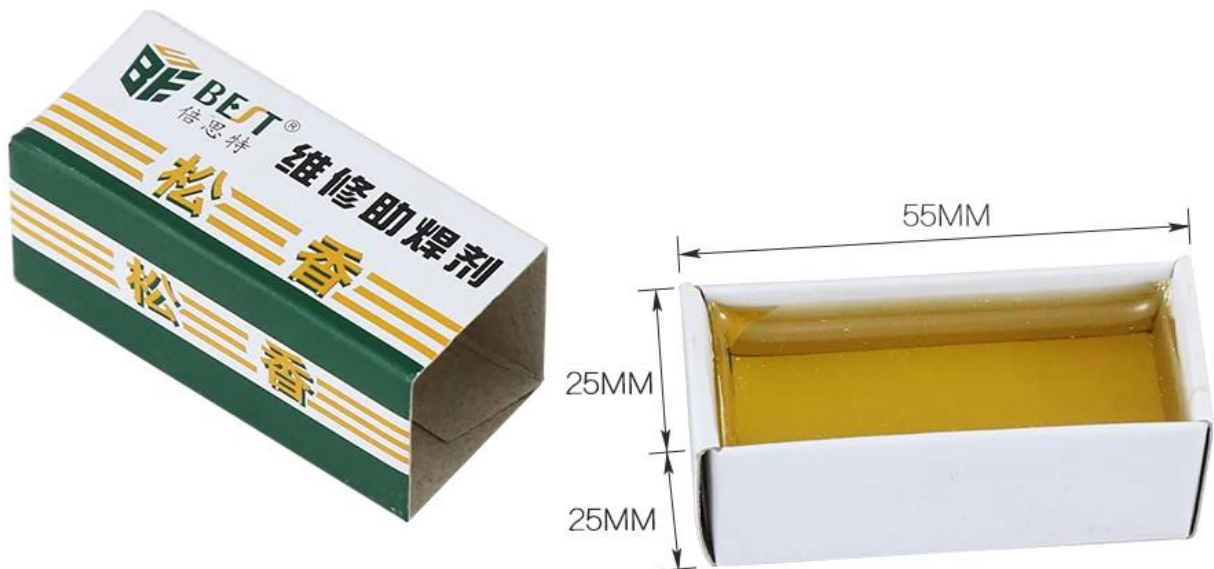

BEST high purity soldering aid Colophony .

No impurities of high purity and high-quality soldering aid Colophony.

## PRODUCT FEATURES

- ▶ In addition to oxide film
- ▶ To prevent oxidation
- ▶ Reduce surface tension

### Why need rosin

As the metal surface with air contact will produce a layer of oxide film, the higher the temperature, the more oxidation of this layer of oxide film to prevent the liquid solder on the metal lubrication, like the glass stained with oil will make the water can not wet the same. Welding machine is used to remove the oxide film of a special material, also known as flux - rosin.
