

intelligent

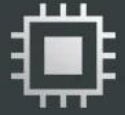

# DC HEAT GUN

Rapid temperature rise

ACCURATE TEMPERATURE CONTROL

# Four characteristics

Adjustable air volume

Exact temperature

Heat up quickly

Use safety

# Scope of use

# DC distributed heating

rapid heating  
Durable and smart

# Product Description

Front

Behind

# Precautions

The bottom is the air pump fixing screw, the main function is to ensure that the air pump is in the Does not fall off during transport.

When using, remove the screw first, so that there will be no working noise.

# Product parameters

|                           |                  |
|---------------------------|------------------|
| Model                     | SLD-850A         |
| Product name              | Hot air station  |
| Power                     | 600w             |
| Weight                    | 4.00kg           |
| Input voltage             | 220VAC 50/60Hz   |
| Temperature control range | 150°C ~ 480°C    |
| Airflow                   | ≈150cm/s         |
| Air volume gear           | A25~A99          |
| ambient temperature       | 0°C ~40°C        |
| Machine size              | L185*W245*H125mm |
| Package Size              | L265*W165*H155mm |

205mm
