Iron head cleaning seat

PRODUCT DETAILS

Brand: Bst	**Weight:** 65g
name: Tip cleaning station	**Size:** Φ28mmx83mm

Material: The suction tin tennis ball is made of imported alloy steel wire.

Simple structure design, easy maintenance, light M-shaped design, electric iron tip facing up,

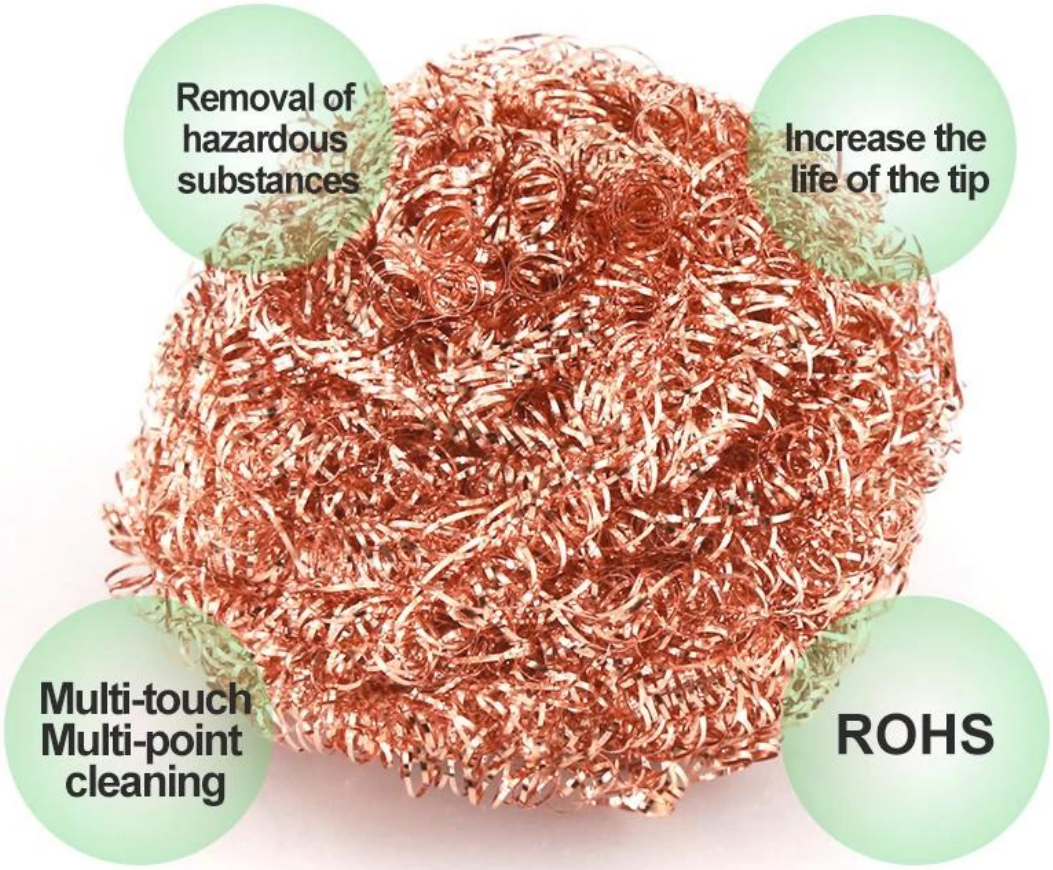
The placement of the handle is downward, eliminating the traditional iron frame and sealing the temperature effect.

In order to reduce the temperature drop of the welding tip during cleaning, it is not necessary to add water to the nozzle.

Clean the tip. Prevent solder from splashing everywhere when cleaning.

The residual slag can be completely cleaned.

PRODUCT FEATURES



Good tin absorption effect, not easy to hurt the soldering iron

Imported alloy steel wire braided

Metal shell

Stable, anti-fall, durable, component
