

150 ML Vidrio transparente Líquido Reparación del teléfono Limpiador Removedor Botella Prensa Automático Bombeo de agua Dispensador Botella de alcohol

Descripción del producto

La bomba de precisión resistente a las fugas evita la evaporación del contenido y el reflujo
La tapa con bisagras de acero inoxidable evita las impurezas cuando no está en uso
El cuerpo está hecho de material ESD de HDPE, es ideal para usar en ambientes de salas limpias y de la EPA.

La botella del dispensador de alcohol se aplica con un hisopo, toallitas o algodón que es un recipiente ideal para alcohol, acetona, carbinol, diluyente y otros líquidos. La tapa evita la contaminación del reactivo mientras se usa. Y la tapa de acero inoxidable es bastante buena disolventes agresivos. El cuerpo del contenedor está sellado con una banda que garantiza la pureza del reactivo.

PRODUCT DISPLAY

Glass alcohol bottle

- ⌚ Anti-blowout nozzle
- ⌚ Anti-static
- ⌚ Anti-corrosion

PRODUCT SIZE

name: Glass alcohol bottle

size: Φ 80mmx108mm

capacity: 150ml

Weight: 260g

Features: Press out water to prevent corrosion

Material: Cap (PP polypropylene), bottle (glass), liquid pump (aluminum alloy)

1. It adopts corrosion-resistant liquid pump and anti-acid anti-decrease glass material, which has superior corrosion resistance.
2. Good light transmission, it is easy to see the condition of the liquid inside.
3. Easy to take liquid, save time and improve work efficiency.
4. Closed door valve can prevent the sucked liquid from flowing back into the bottle and prevent the liquid in the bottle from volatilizing.

Used for washing water, flux, alcohol, etc.

Storage of volatile liquids

Anti-static metal suction pump

Smoother fluids and save time.
Improve work efficiency

Pump port design

Stainless steel pump port for
precision valve design
Press-type bottle, water can be
effectively pressed with one
touch
Prevent solvent leakage,
volatilization and corrosion.

Glass alcohol bottle

Using anti-acid, anti-depreciation, anti-corrosion glass materials, Has a strong corrosion resistance.
