

BST-495 Filtro de 3 capas Escape Purificador industrial Instrumento Soldadura Extractor de humos de humo para máquina de separación por láser

Descripción del producto

1. Absorbe y elimina rápidamente los gases tóxicos liberados durante la soldadura.
2. Paquetes únicos de filtros de aire colocados en bace con mínima resistencia al aire, mayor potencia de succión que garantiza un excelente entorno de trabajo.

Especificación

Entrada de alimentación :	110V / 220V
Tipo de motor:	Cepillo sin carbón
Material:	Plástico ABS
Peso:	1,45 kg
Embalaje:	6 establece un cartón
Tamaño del cartón:	53 * 28 * 62 cm
Peso del cartón (G.W.)	11kg

Descripción del producto

Product Usage

MODEL	BST-495
POWER	150W
OUTPUT VOLTAGE	ac220v-110v
WEIGHT	15kg
BODY SIZE	285 * 245 * 345mm

▼ CHARACTERISTICS

This smoker has three layers of filter, which is used in various fields with too much smoke. The volume of smoke can be adjusted freely, the power is large, and the service life is long

PRODUCT INFORMATION

ACTIVATED CARBON FILTRATION

WELDING PURIFICATION

APPLICABLE TO VARIOUS FIELDS

DC brushless motor, stable performance, long life

Brushless Motor

Eliminate smoke and odor

long life

Power saving

MULTI-LAYER FILTRATION

Filtering PM60

Filtering PM0.3

Filtering smoke
