

Package Size

Six core strengths

4.2V regulated
output

Detect current
and voltage

Automatic power-off
protection

Compatible with
Apple/Android
fast charging

Automatic identification
of positive and
negative poles

One-key activation
for power loss

One-click activates the battery

Battery activation in just a few steps

Intelligent identification battery positive and negative

4.2V voltage regulator output

Overload and short circuit protection, regulated output
intelligent identification of positive and negative battery
