

Nom : grattoir en étain.

Modèle : BST-141/142/143/144.

Matériel: acier non magnétique acier inoxydable PC

Caractéristique : antistatique, antimagnétique, isolé.

N.W. : 45 g/pièces

G.W. : 47 g/pièce.

**NON-MAGNETIC RUBBER HANDLE  
SCRAPE OFF ADHESIVE, SCRAPE TIN, PRY KNIFE**

**No burrs, even tin scraping, high toughness**

# ADVANTAGES VISIBLE TO THE NAKED EYE

The blade is non-magnetic

Thin blade without burrs

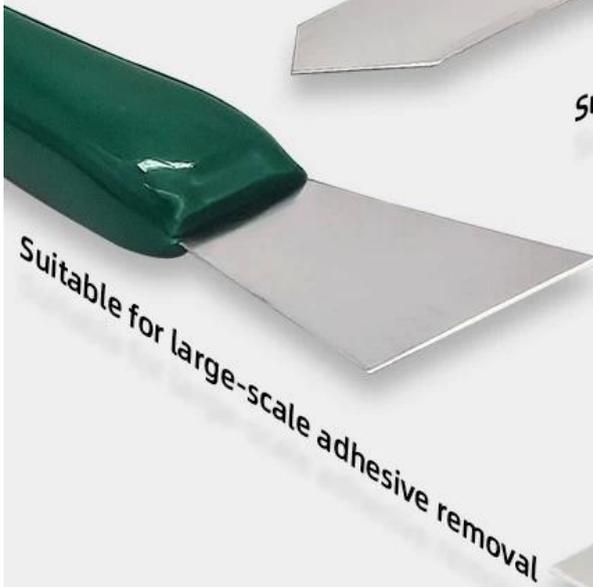

Anti corrosion, rust prevention,  
high temperature resistance

Smooth tin scraping

# EACH BLADE HAS A DIFFERENT PURPOSE

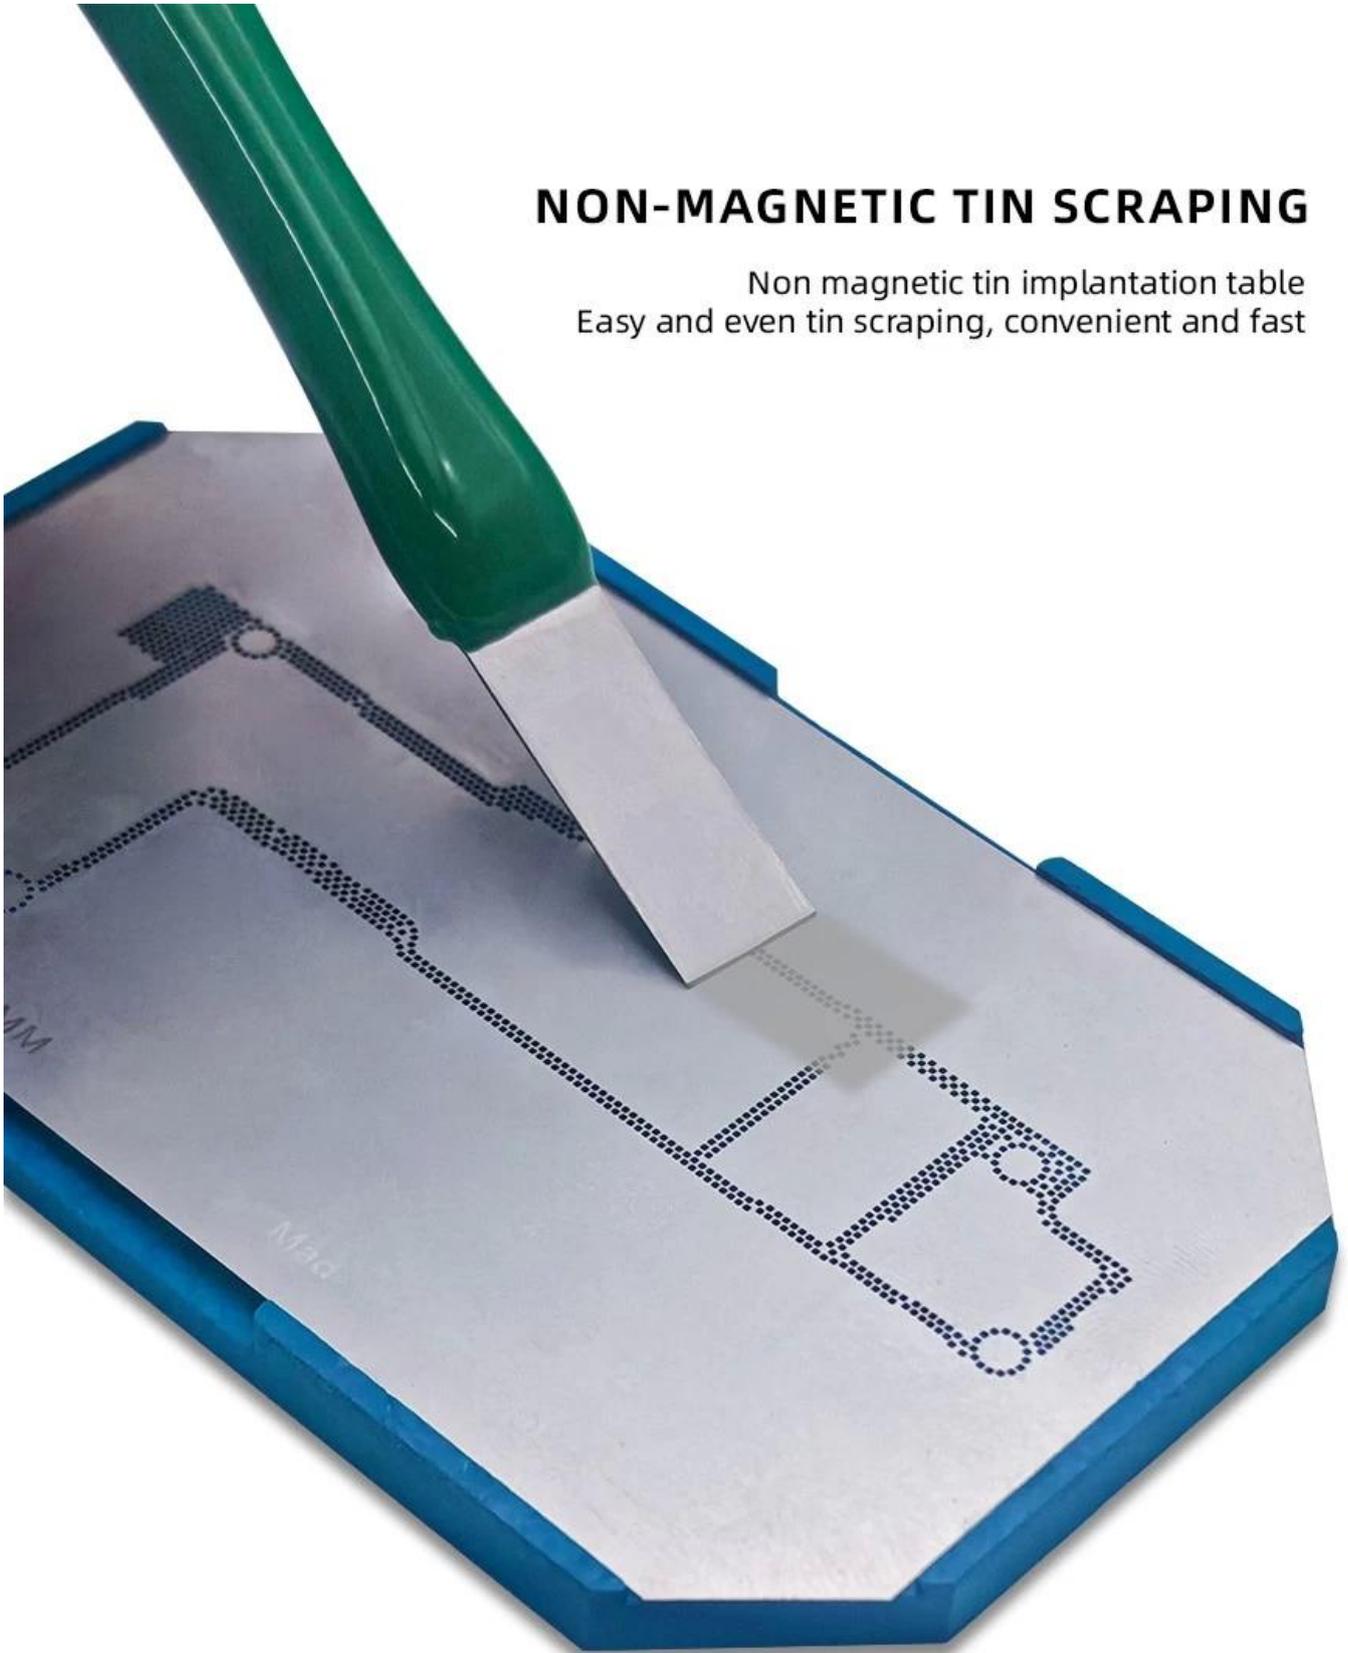

# SOFT RUBBER HANDLE

Increase the thickness of the rubber sleeve and use a curved handle for a more comfortable and effortless grip

## NON-MAGNETIC TIN SCRAPING

Non magnetic tin implantation table  
Easy and even tin scraping, convenient and fast

## HIGH QUALITY STEEL FORGING

Selected high-quality steel sheets with strong toughness, deformation resistance, corrosion resistance, and high temperature resistance

**Name**

Non-magnetic tin scraper
