

INSULATED THERMAL CONDUCTIVE
SILICONE PADS

GOOD THERMAL CONDUCTIVITY AND FLEXIBILITY

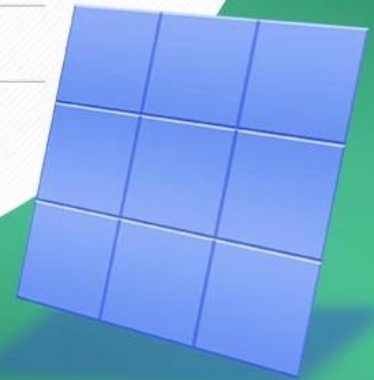

VBST-1215

Specifications

Product Name	Pre-Cut Thermal Pads
Product Model	VBST-1215
Material	Silicone
Product Color	Blue
Thermal conductivity	1.5W/m·k
Temp. resistance	-50°C~200°C
Pads Size	12×12×1.5mm
QTY.	100Pcs/Box
Package Size	φ50*50mm
G. W.	60g

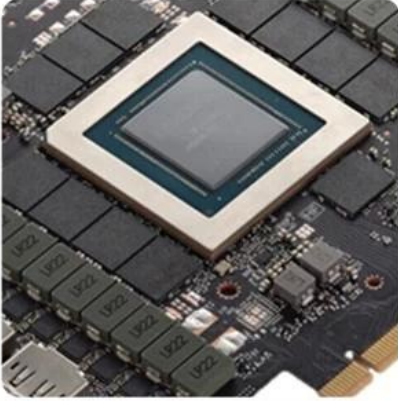

Self viscosity

Flexible compression can effectively fill air gaps, comprehensively improve thermal conductivity

Usage Range

CPU, GPU, North/South Bridge Chip

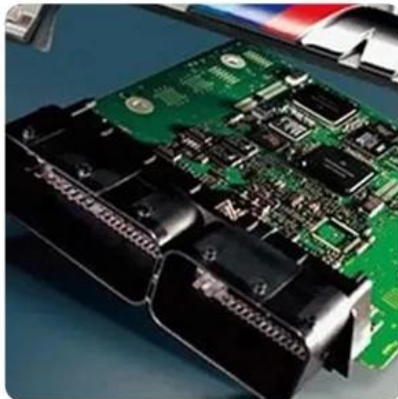

Micro heat pipe radiator

Portable electronic devices

High speed hard drive

Automotive engine control device

Electric vehicle electronic equipment

RDRAM memory module

Mobile Phone Chips

LED PCB

Package Size

50mm

49mm
