

SMART PHONE POWER CORD

DC 4.2~4.8V

0 ~ 3 A

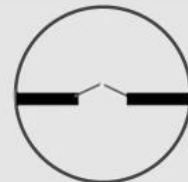

Data simulation

Digital display screen

Applicable for iPhone/Android

No wiring required

Product Specifications

Name	Phone power cord
Model	BES-063
Input voltage	DC 4.2V~4.8V
Output current	0-3A
Shell	ABS+PC
Package	Plastic storage box
Package dimensions	217*100*42mm
G.W.	320g

Upgraded version

Applicable for iPhone/Android

5

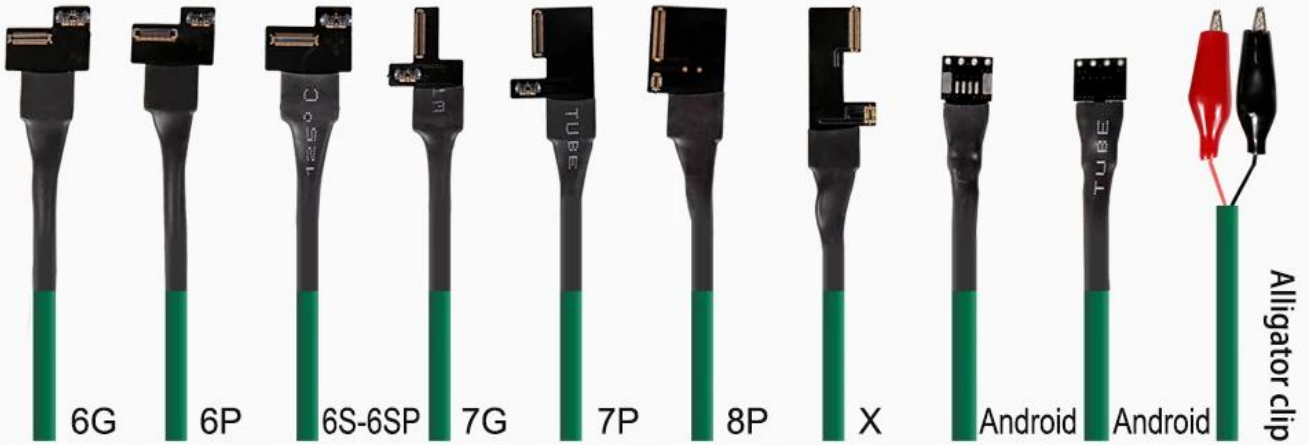

Digit display

Display current and voltage

4

USB interface

Multiple phone detection

Product Configuration and Usage

The cable can be replaced
Models can continue to increase

Short circuit protection, intelligent identification, support mainstream mobile phone models.
