

HIGH TOUGHNESS

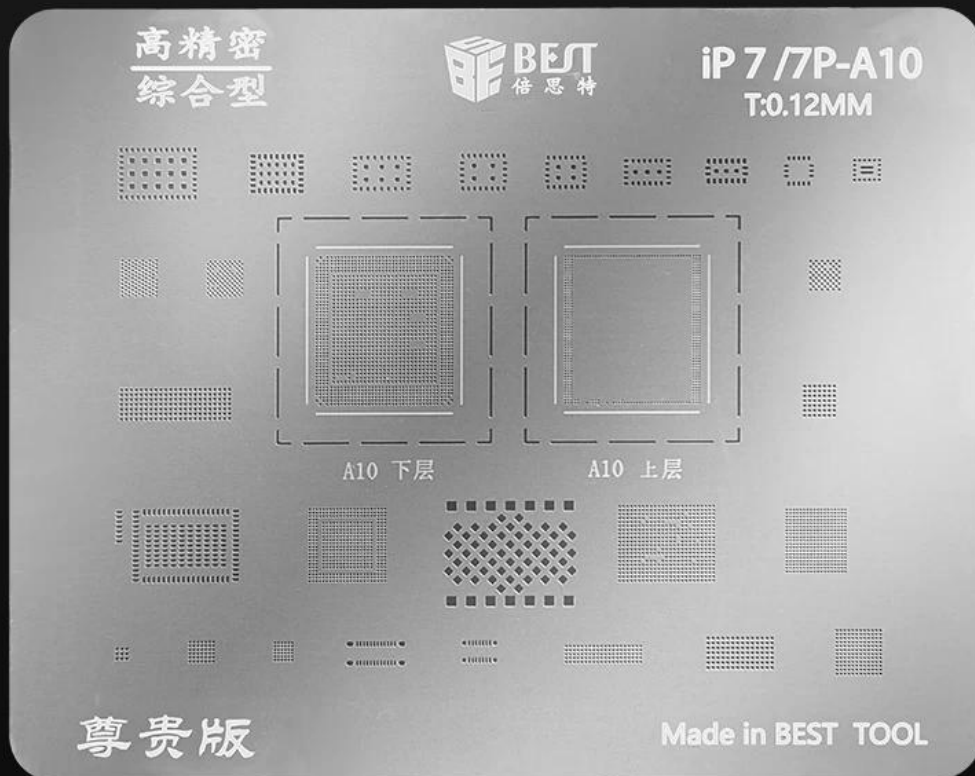

# BGA IC

## Soldering Reballing Stencil

### iP 7/7P-A10

Strong magnetic steel

## Product Usage

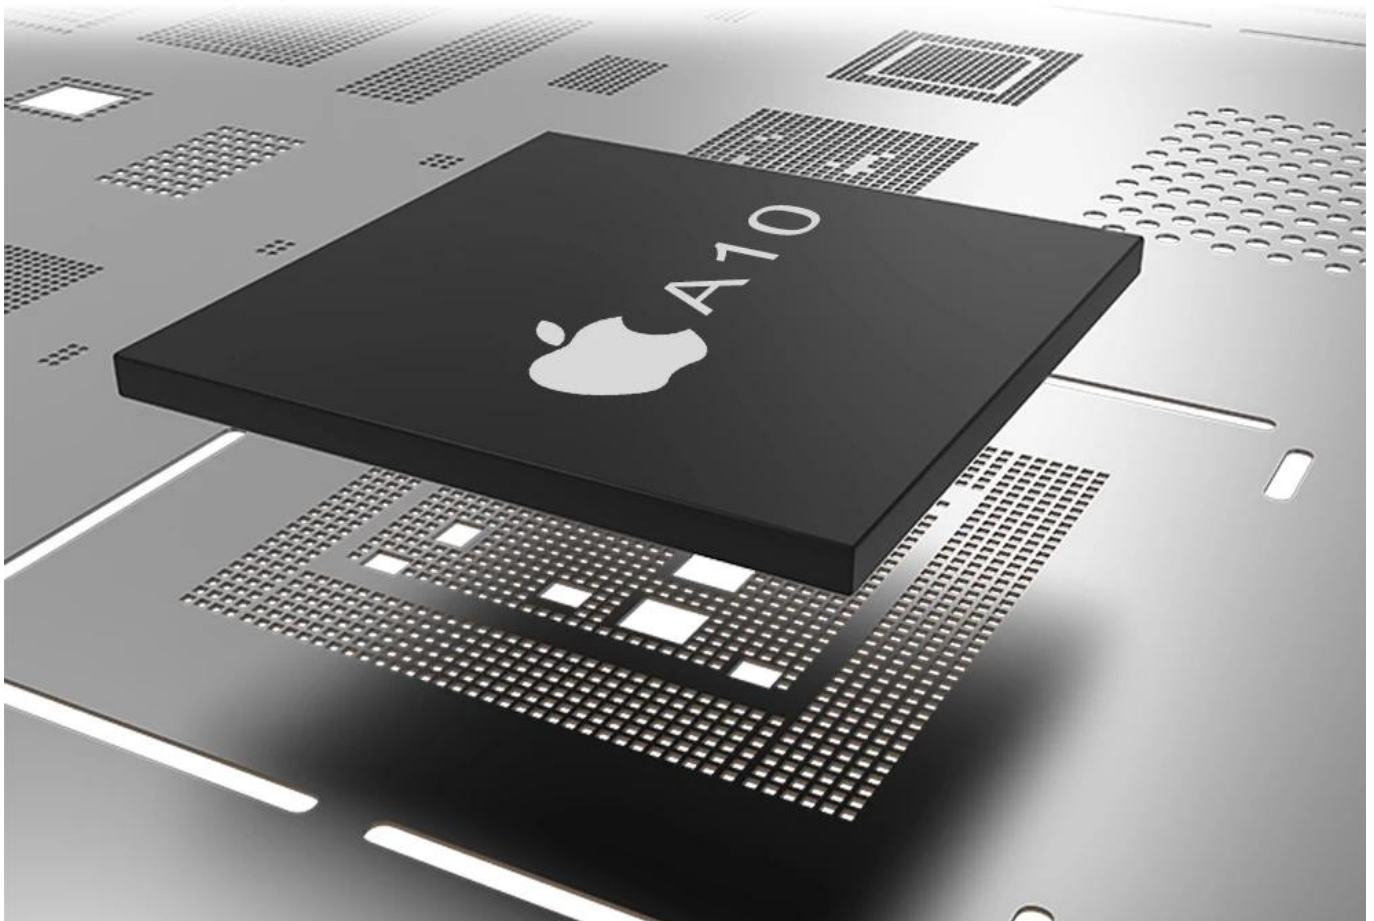

Model NO.	iP 7/7P-A10
Name	Reballing Stencil
Material	Strong magnetic steel
Melting point	700°C
G.W.	12.9g
Size	3.36*4.30 in.

---

Easily mounted on the steel mesh to make the chip fit more closely with the mesh Therefore.

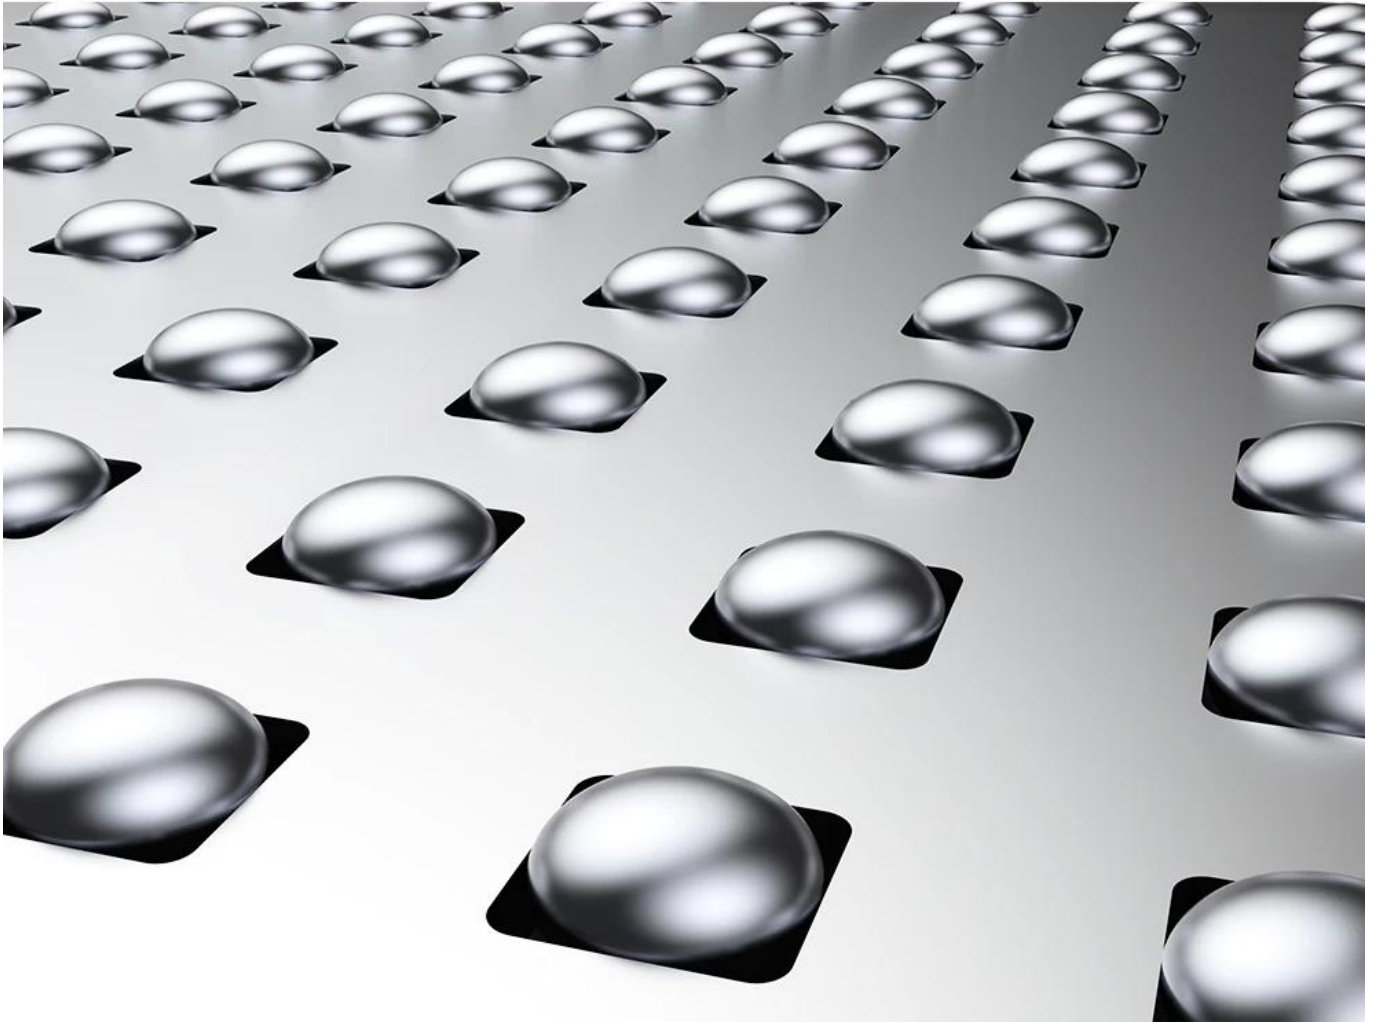

Hard and wear resistant  
vertical hole position, no burr

Precision Reballing Stencil  
Tin point is neat and tidy

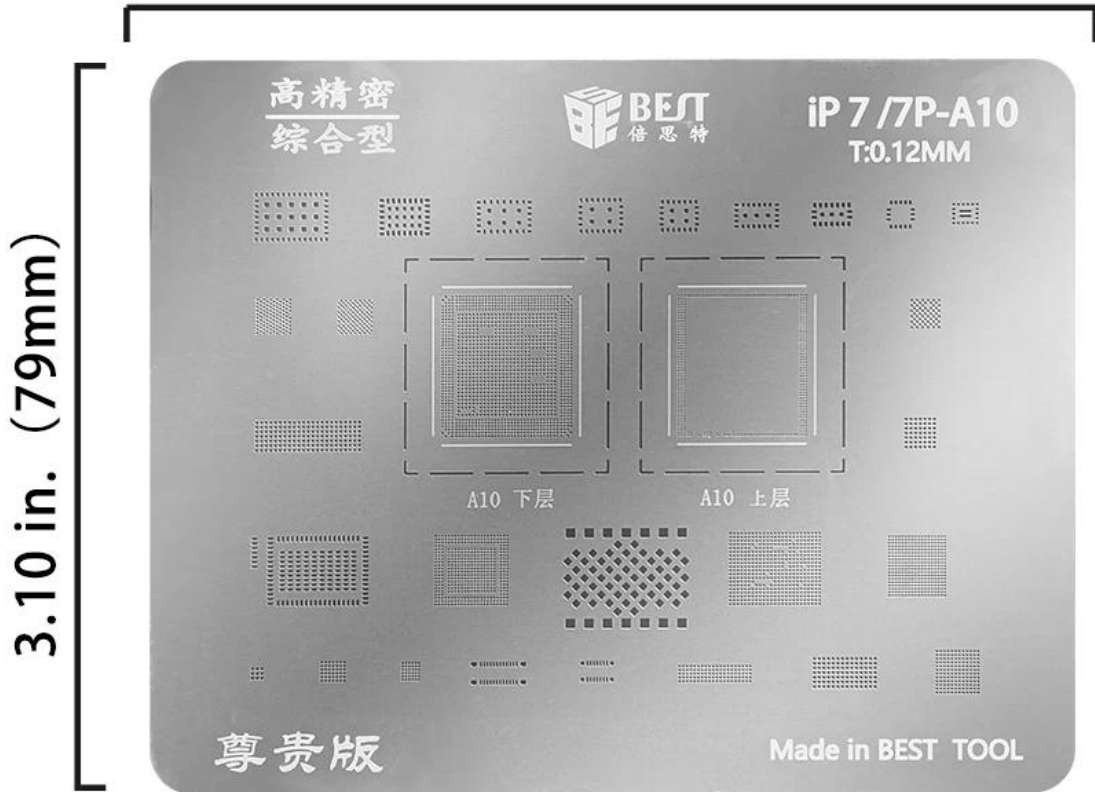

# Product List

N.W.:6.9g

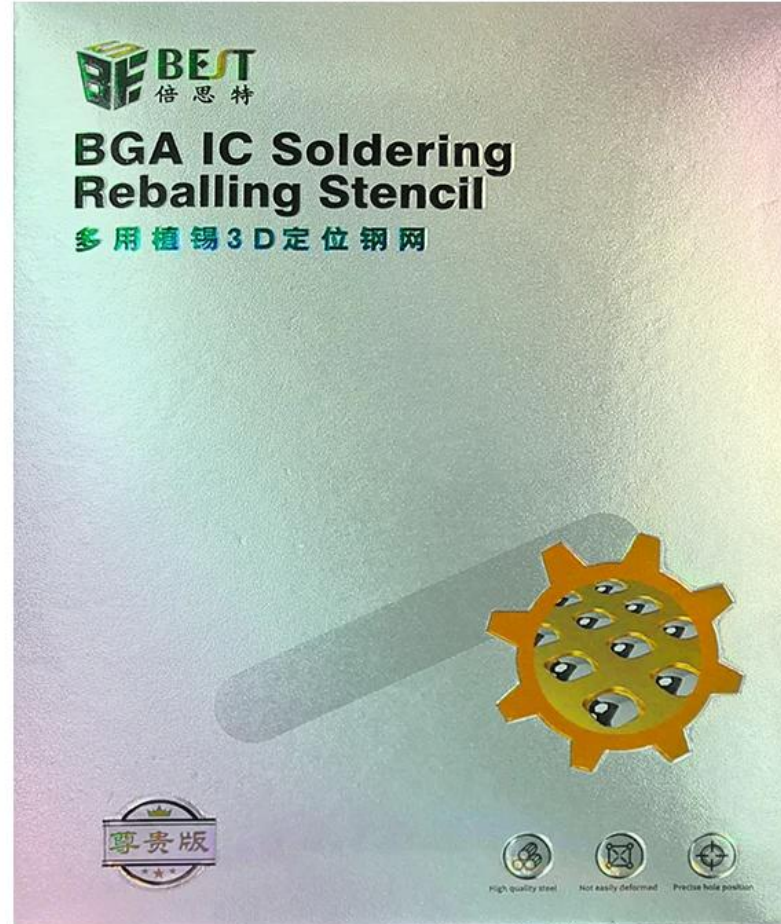

3.89 in. (98mm)

G.W.:12.9g

3.36 in. (85mm)

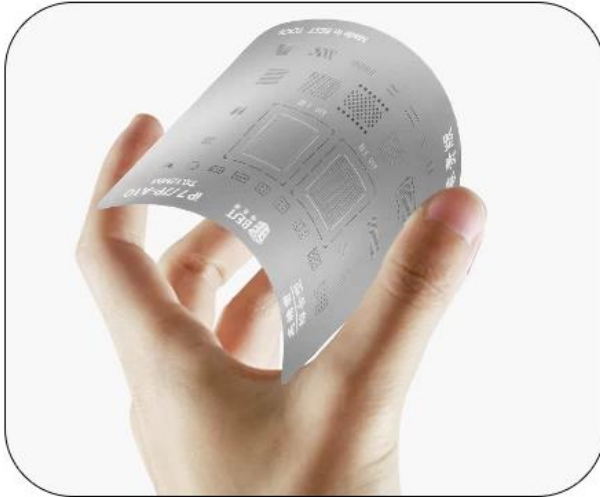

4.30 in. (109mm)

Thin to 0.12mm

Precise die-casting **form heating**

Not easily deformed and scratched
