

	110V / 220V
	ABS[[[
	1.45Kg
	600000
	53 * 28 * 62 cm
G.W	11kg

Product Usage

MODEL	BST-495
POWER	150W
OUTPUT VOLTAGE	ac220v-110v
WEIGHT	15kg
BODY SIZE	285 * 245 * 345mm

▼ CHARACTERISTICS

This smoker has three layers of filter, which is used in various fields with too much smoke. The volume of smoke can be adjusted freely, the power is large, and the service life is long

ACTIVATED CARBON FILTRATION WELDING PURIFICATION WELDING PURIFICATION

APPLICABLE TO VARIOUS FIELDS

DC brushless motor, stable performance, long life

Brushless Motor

Eliminate smoke and odor

long life

Power saving

MULTI-LAYER FILTRATION

Filtering PM60

Filtering PM0.3

Filtering smoke

Operation instructions

Turn on the power switch (such as P1), adjust the speed control knob to make the machine work according to the required air volume, and turn the knob to "off" to stop the machine, Turn to "on" position to start, turn to "Max" position to reach the maximum value (such as P2)
