HEAT-RESISTANT

Aluminium alloy working mat

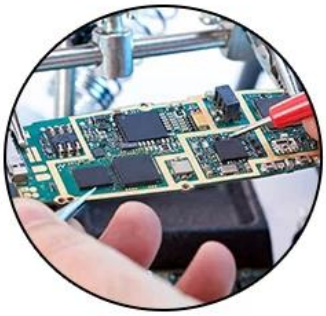
BST-001B+

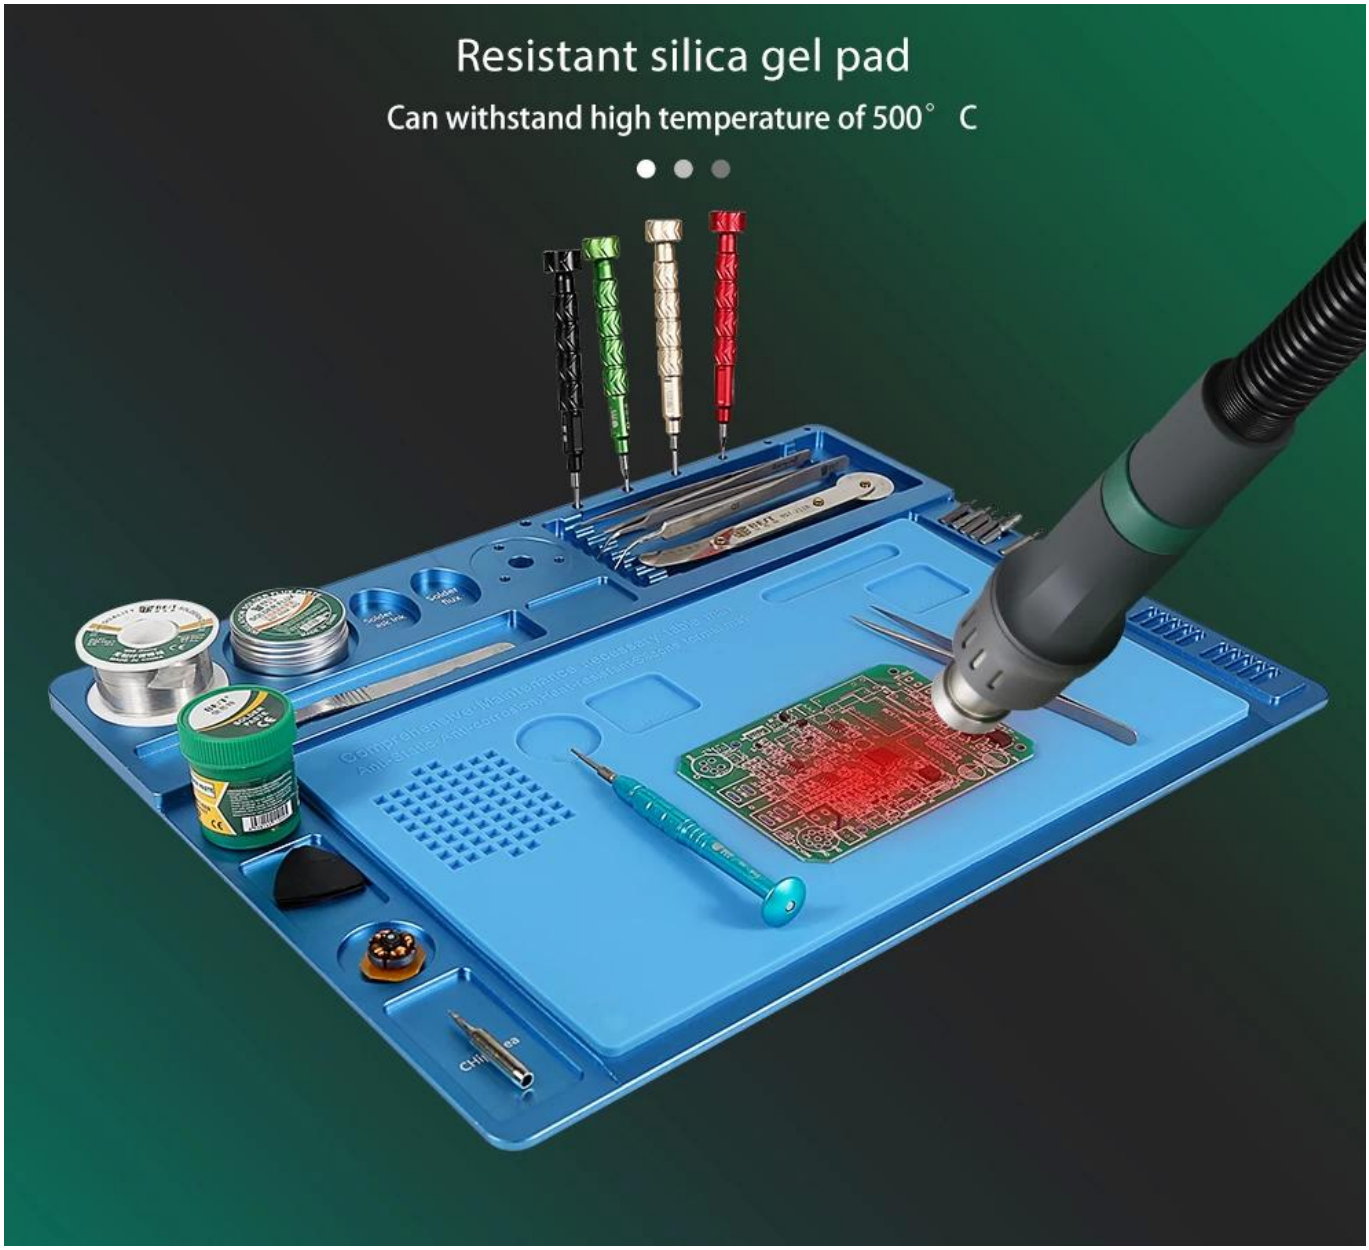
Product Usage

Model NO.	BST-001B+
Name	Working mat
Material	Aluminum alloy + Silica gel
G.W.	3.15kg
Size	425*320mm

PRODUCT INFORMATION

Suitable for various maintenance scenarios





Resistant silica gel pad
Can withstand high temperature of 500° C

It can store all kinds of disassembled small parts

All kinds of groove
Applicable to all types of tools
Solder Paste
Tin wire
Solder mask Ink
Solder flux
