

Features

Product Name: DC Power Supply

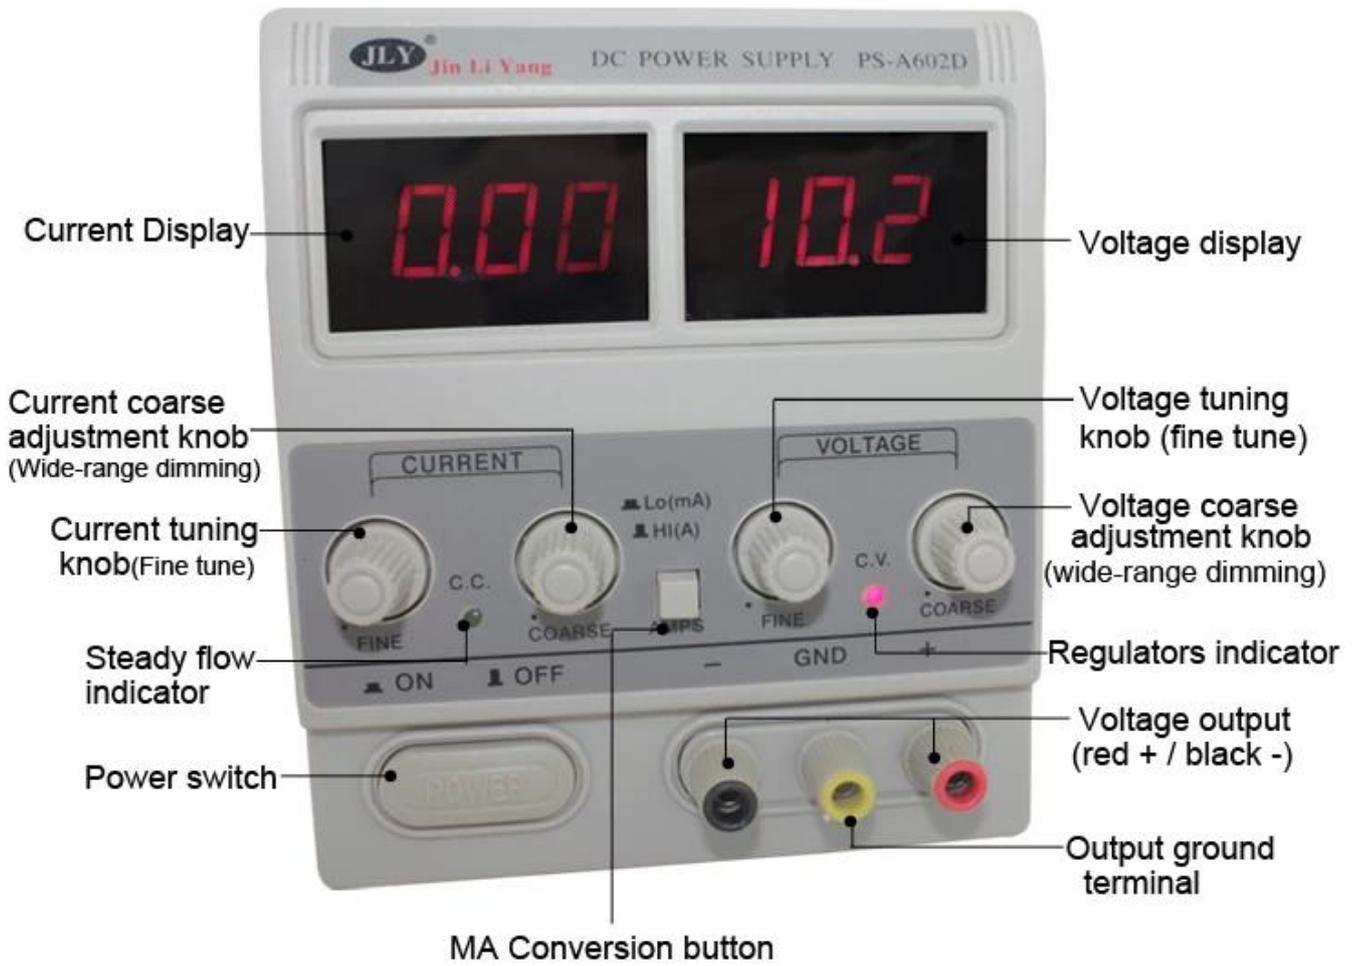

Product Type:BST-A602D

Body weight: 4.185kg

Dimensions: 255*125*150mm

Features introduced

- 1.in the output full power of the state, work long hours;
- 2.Regulation, steady flow automatically switches;
- 3 Lower ripple voltage;
- 4 With freely selectable overcurrent protection mode, to adapt to a wider scope of use;
- 5 Has a continuously adjustable output overvoltage protection, the load has stronger protection ;

Picture

Positive

Side

Package

Current Display

Current display accuracy: 0.01A

Voltage display

Voltage display accuracy: 0.1V

**Current FINE / COARSE adjustment knob
Steady flow indicator**

**Voltage FINE / COARSE adjustment knob
Regulators indicator**

Power switch

After power on, press the switch is turned on to work,
close to stop working

Voltage Output

Red + / black - / yellow ground terminal for the output
