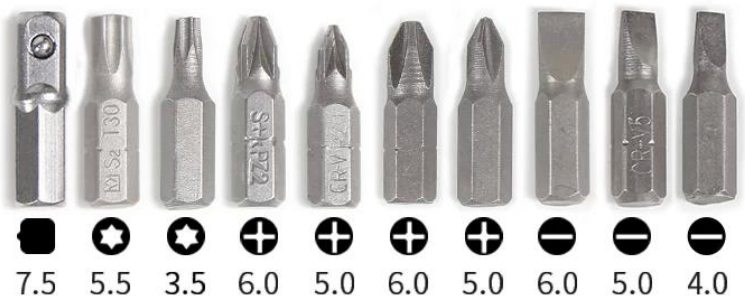
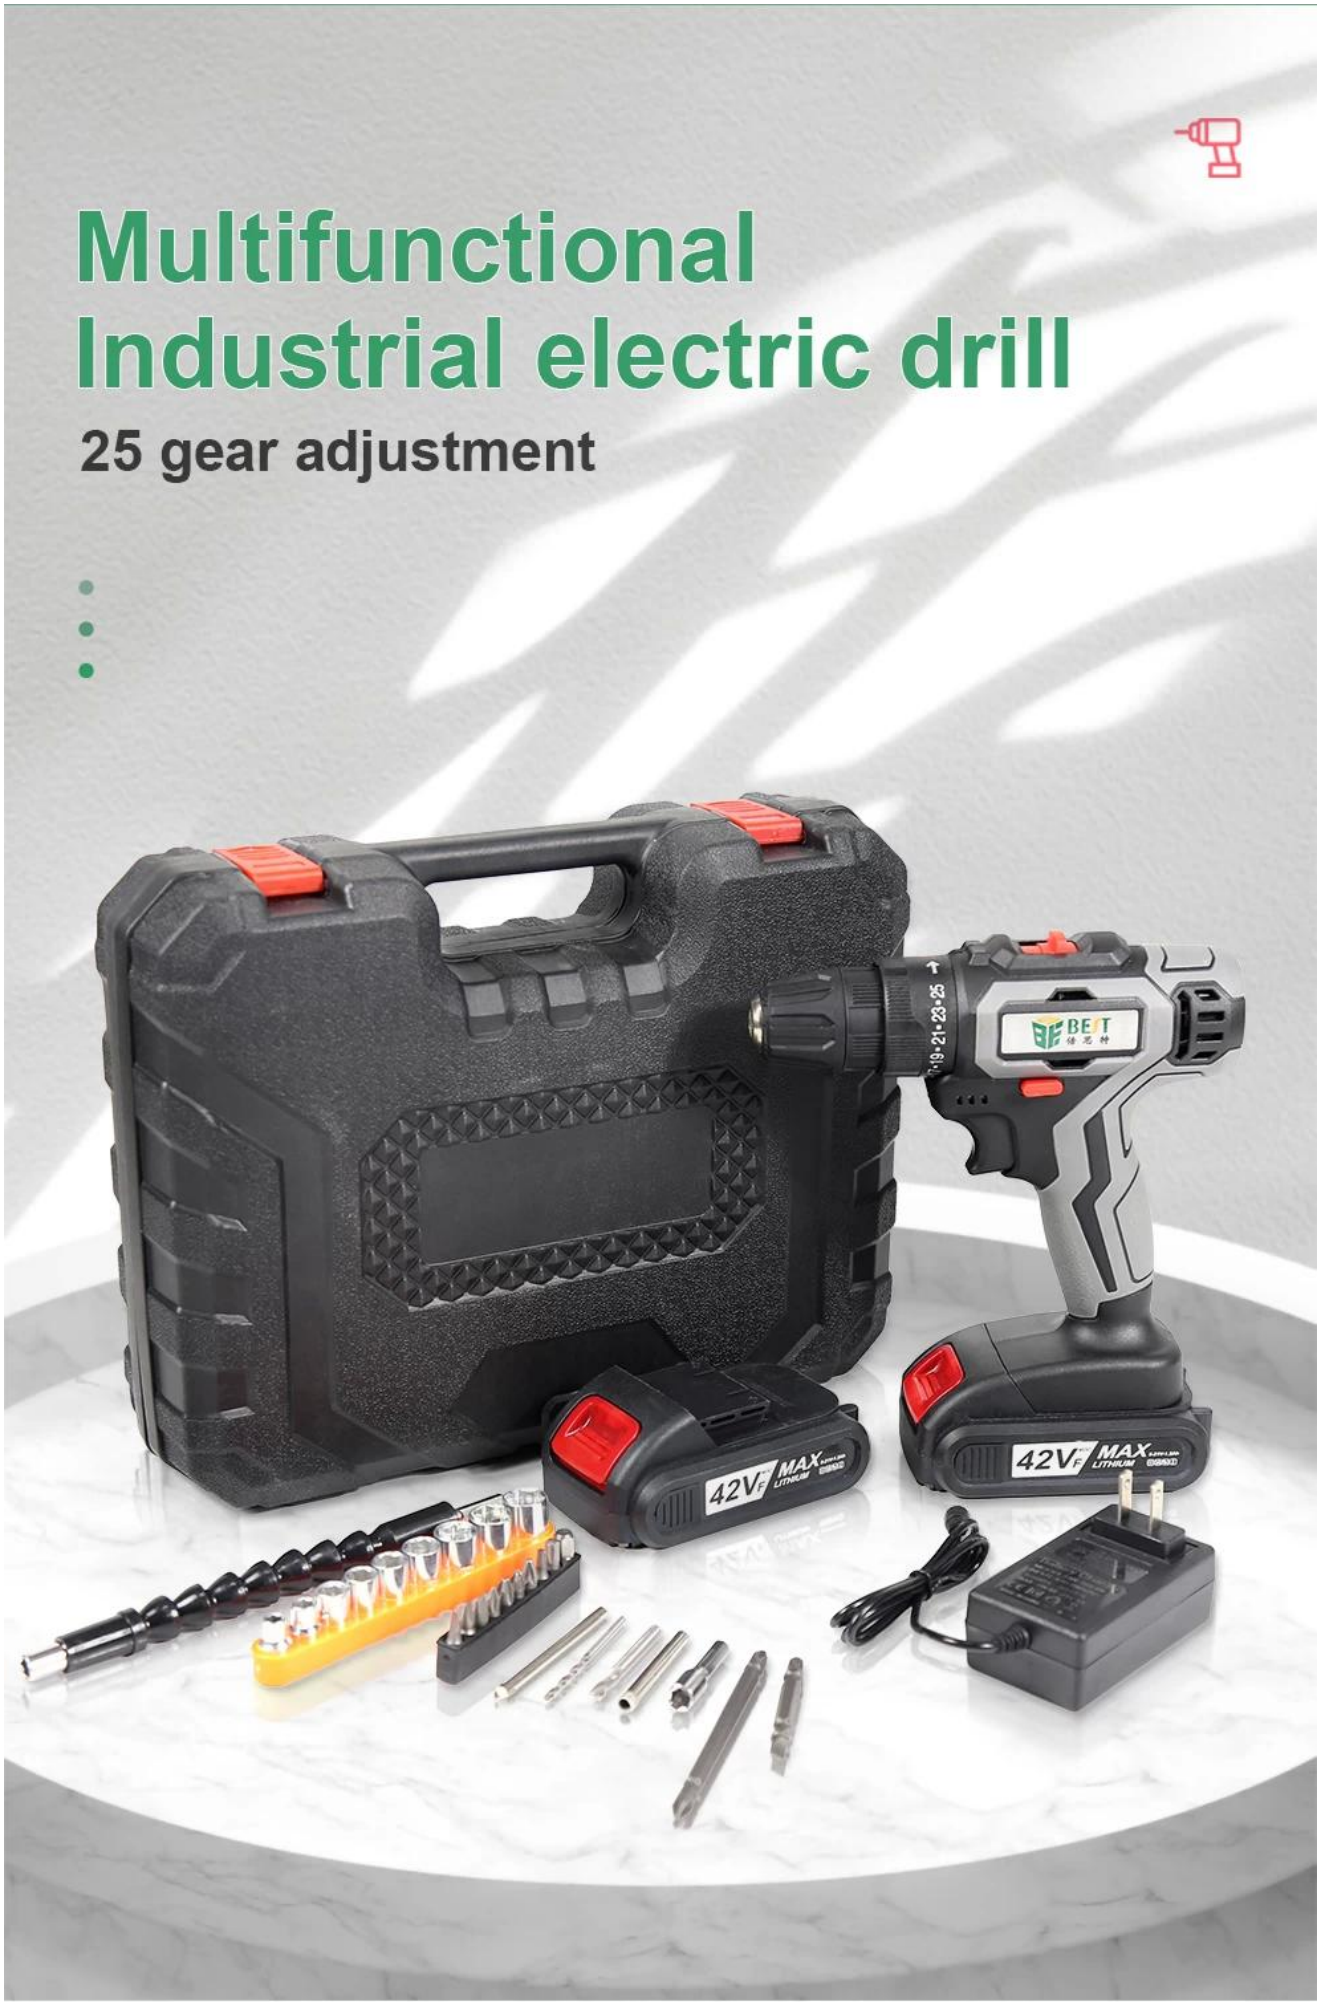
Accessory parameters



(Unit: mm)

Multifunctional Industrial electric drill

25 gear adjustment



Eight core upgrades

25 gears
Torque adjustment

Three-jaw self-locking

Hardened gear

Overload protection

Steering adjustment

Stepless speed regulation

Pure copper motor

Long use time

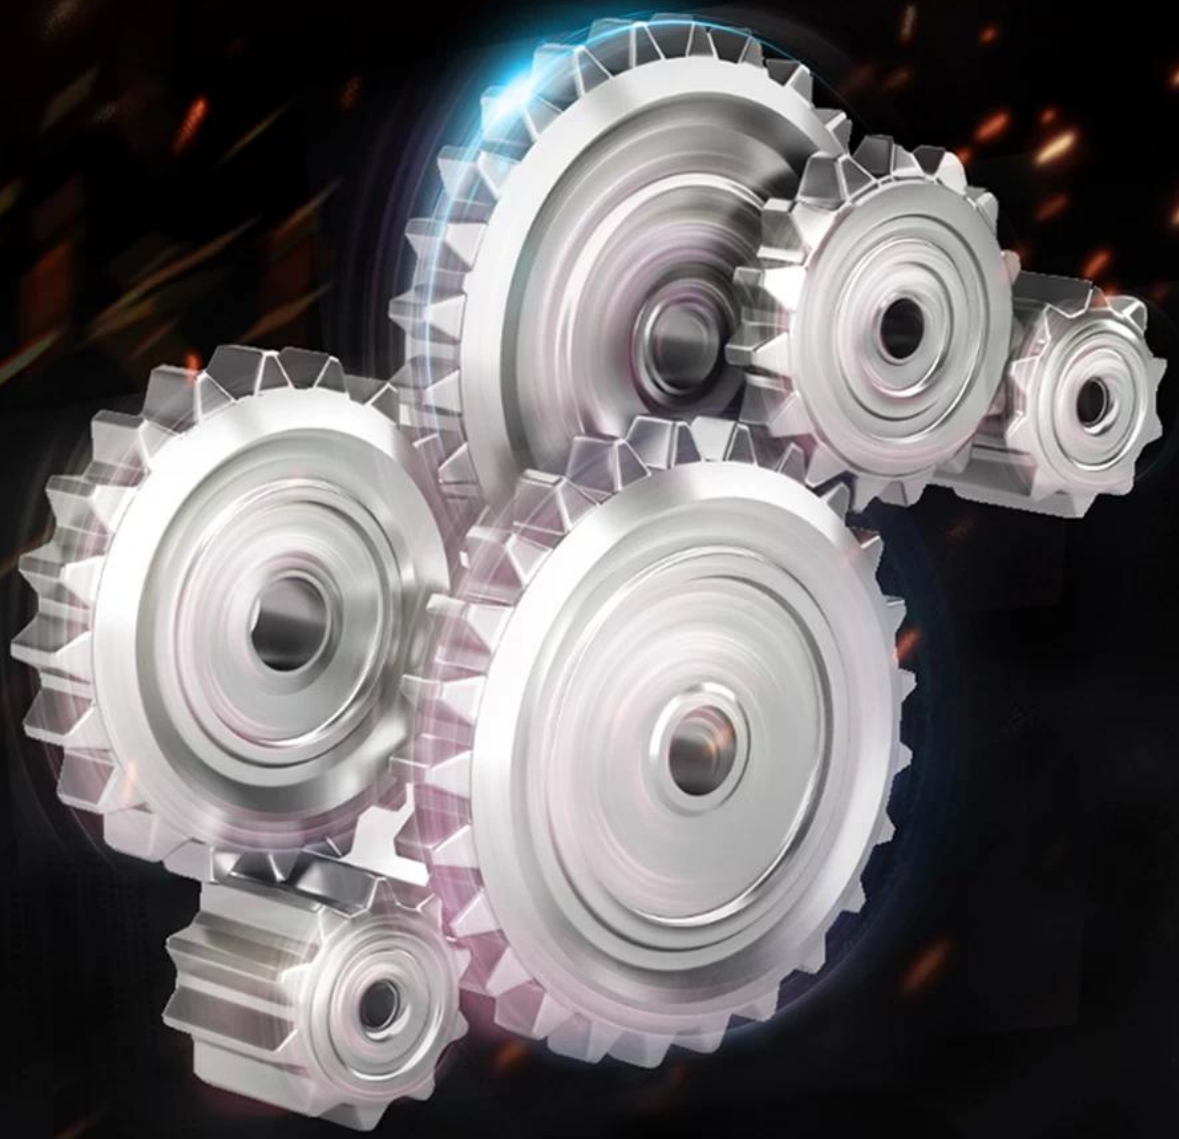
Can be applied to various venues

·High-power pure copper motor

·Powerful three-dimensional heat dissipation

Alloy forged steel gear

Secondary quenching, higher strength.



Two speed adjustment

one machine multi-function 25+3 torque

·1st gear low speed suitable for screwing

·2 speed high speed for drilling

Forward and reverse rotation can be switched at one touch

LED lighting
can work in dark environment

Two functions easily switch

FLAT DRILL START SCREW

Large capacity lithium battery

Can work for a long time

Configuration resolution

Turn the chuck counterclockwise to close

Turn the chuck clockwise to open

Product parameters

Brand	BESTOOL	Model	42VF
Torque	28~35N	Gear	25+2
Motor	Pure copper motor	Rotating speed	0~1350r/min
Features	Flat drill、Start screw	Carbon brush	Integrated copper powder carbon brush
Battery	5*1500mA lithium battery	Clamping capacity	0.8mm~10mm

*Manual measurement may have 1~2cm error
