

# BEST-898D 2 in 1 hot air LED display BGA rework station

## **Product description**

1. Convenient portable portable device and digital LED display.
2. Microcomputer control, rapid heating.
3. Adjust the rotation of airflow and temperature.
4. Refer to the instructions supplied with the replacement parts for the three nozzles (large, medium and small).
5. If the resistance value is not correct, the part will be replaced.
6. When the temperature is below 70 ° C, the rotation can be stopped automatically.
7. Intelligent system, automatic alarm, fault detection.
8. This product has ESD protection.
9. High quality and long lasting resistance
10. The outer casing is made of alloy material and looks good.
11. Secure welder QFP, PLCC, BGA and other heat-sensitive components.
12. Intelligent detection and cold air function.
13. Green lines and high-quality silicone body heat help extend service life and save electricity.

## **The packaging includes**

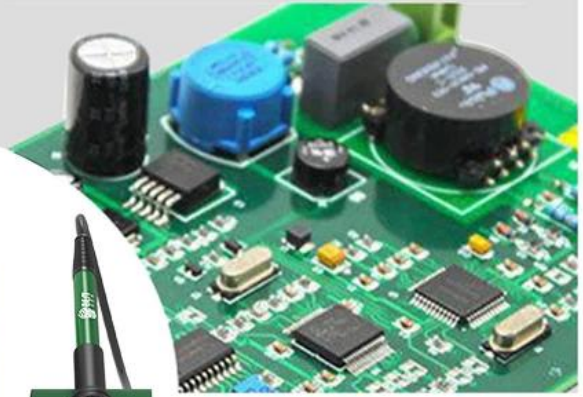

898D, 5, 8, 10mm wind gun nozzle, welder frame, power cord, air pistol grip, welder handle, wrench, starter

# 2 in 1 digital display lead-free helical wind hot air soldering station

Appliance Repair

Board soldering

Phone Repair

Heat shrinkable tube

## PRODUCT DETAILS

## PRODUCT FEATURES

Brand:		Name:	2 in 1 digital heat gun rework station	
Model:	BST-898D	Rated voltage:	AC 110/220V 50/60HZ	
Rated power:	700W	Airflow:	120L/min (Max)	
Air gun temperature range:		100 ° C - 450 ° C		
Soldering iron temperature range:		200 ° C - 480 ° C		
Weight(including packaging):	2.75KG	Size:	Packing:	L265*W170*H145mm
			Machine:	L98*W140*H132mm
Accessories:	898D, wind gun nozzle 5, 8, 10mm, soldering iron frame, power cord, air gun handle, soldering iron handle, wrench, starter			
Features:	1. LED air gun temperature display and soldering iron temperature display, temperature is accurate and stable, clearly visible			
	2. When the air gun is placed on the bracket, it will automatically enter the cooling and cooling standby. When the air gun is picked up, it will heat up quickly.			
	3. High power, fast heating, anti-static, temperature adjustable			

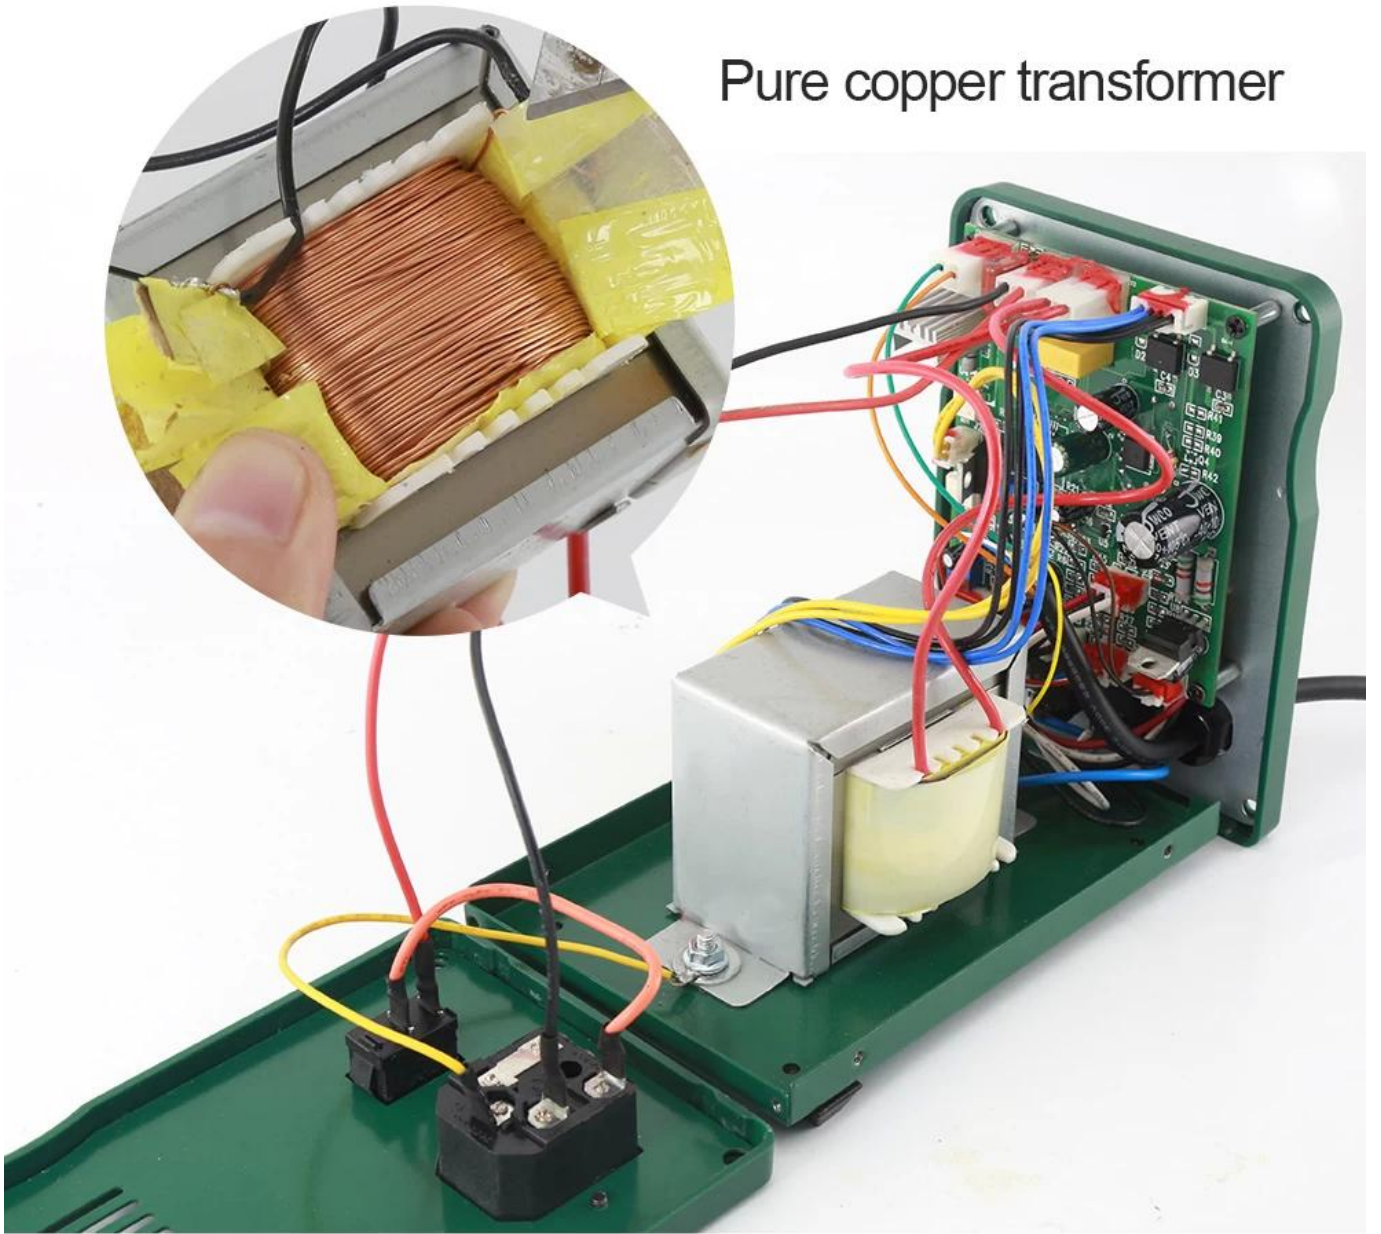

## Two LED screen displays

The temperature is accurate and stable,  
clearly visible

Rapid temperature rise  
durable Intelligent, put back on the  
bracket to automatically cool down

Pure copper transformer
