

BEST NEW 3M Strong Sticky Transparent Double Sided Adhesive Tape 2mm-10mm 50m Length For Home Hardware repairing

Product Description

Made of non-woven cloth and coating with acrylic on both sides, very easy to operate

Ultrathin and ultra-powerful stickiness

Good Durability, temperature withstanding, strong adhesive, waterproof

Suitable for repairing mobile phone such as LCD touch panel, stick shell, screen , flex cable and so on

Specifications:

Item Name: Double Sided Adhesive Tape

Material: Non woven fabric, acrylic acid adhesive

Width Size: 0.2cm, 0.3cm, 0.4cm, 0.5cm, 0.6cm, 0.7cm, 0.8cm, 0.9cm, 1cm

Lenght Size: 5000cm

Short Time Temp Resistant: 120 centi-degree

Long Time Temp Resistant: 80 centi-degree

Color: Transparent

9080 Transparent double-sided tape

Customizable

Name:	3M9448 Transparent double-sided tape		
Thickness:	0.150 mm	Colour:	Transparent
Temperature resistance:	100°	Weight:	3mm/27G 6mm/101G
Material:	Non-woven substrate Acrylic glue		
Size:	Length:50M Width:customizable		

Features:

1. The acrylic acid pressure sensitive adhesive is applied on both sides of the non-woven substrate.
2. can be die cut.
3. can tear.
4. high temperature resistance.
5. The 3M trademark is printed on the release paper.

Strong viscosity

The tape will work better after 24 hours of sticking, and the longer the sticking time, the stronger the stickiness.

Safe, non-toxic and non-corrosive,

Strong viscosity, waterproof and moisture proof,
High temperature resistance, good resilience,
Easy to use, wide range of applications
