

Precision Electronics MOTHERBOARD CLEANER

Efficient cleaning

Environmentally friendly lead-free

3 seconds quick dry

Evaporates quickly without wiping

Fast penetration to remove dirt

Can quickly remove harmful substances such as dust, oil, metal dust, charged particles and corrosion stains.

Advanced board washing water circuit board pcb cleaning agent mobile phone computer motherboard maintenance cleaning liquid environmental protection, no odor, no whitening, environmental protection, lead-free board washing water, mobile phone computer motherboard PCB circuit board cleaning

Aluminum alloy can body

More effective in preventing liquid volatilization

Motherboard cleaning steps

①

First put the circuit board in place,
Put a sponge or foam pad underneath.

②

Use a brush to remove dust from the
circuit board Or blow the dust ball to
clean it up.

③

Then cooperate with brush cleaning
(multiple cleaning methods such as
ultrasonic, steam, foaming, spraying,
hand washing, etc. can be used,
ultrasonic cleaning time is 10-20 seconds,
and drying time is within 3 minutes
indoors)
