

1	Quietly improve technology, fast technology, you can start working with us in one minute.
2	Equipped with a long working heater.
3	Convenient soldering pen for soldering
4	70% energy savings (THT) to make your work more efficient
Fives	24 V low voltage safe operation.
6	Portable welding operations can be performed for a long time.
7	Continuous operation for 24 hours.

#### Product specifications:

Voltage: 220V / 110V

Output current: 24VAC

Power: 90W

Temperature control: 200 ° C - 480 ° C

Weight: 1.9 kg

Size: 31 \* 17 \* 11 cm

Packing specification: 12 / box

Brand:		Name:	Anti-static electric iron thermostat
Model:	BST-939	Temperature control range:	200 ° C - 480 ° C
Output voltage:	24V	Input voltage:	AC 110V/220V
Rated power:	90W	Weight:	1.95kg
Features:	1. Imported ceramic heating core, fast heating and long service life		
	2: Easy to handle and durable, suitable for prolonged use		
	3: Use anti-static design to prevent electrostatic damage to the delicate		
	4: Low-voltage power supply, which can effectively protect sensitive components and staff safety SMD components		
	5.High temperature resistant silicone wire		

Imported ceramic heating core, the handle is made of high temperature resistant silicone wire.
