

intelligent

DIGITAL HEAT GUN

Rapid temperature rise

ACCURATE TEMPERATURE CONTROL

Four characteristics

Adjustable air volume

Exact temperature

Heat up quickly

Use safety

Scope of use

DC distributed heating

rapid heating
Durable and smart

Product Description

Front

Behind

Precautions

The bottom is the air pump fixing screw, the main function is to ensure that the air pump is in the Does not fall off during transport.

When using, remove the screw first, so that there will be no working noise.

Product parameters

| | |
|---------------------------|------------------|
| Model | SLD-850+ |
| Product name | Hot air station |
| Power | 600w |
| Weight | 4.00kg |
| Input voltage | 220VAC 50/60Hz |
| Temperature control range | 150°C ~ 480°C |
| Airflow | ≈150cm/s |
| Air volume gear | A25~A99 |
| ambient temperature | 0°C ~40°C |
| Machine size | L185*W245*H125mm |
| Package Size | L265*W165*H155mm |

205mm

275mm

340mm
