

The turbine
spins high.
Storm fan
Fan with turbine rotor

**The turbine is a
powerful wind trap**

Replaceable air nozzle

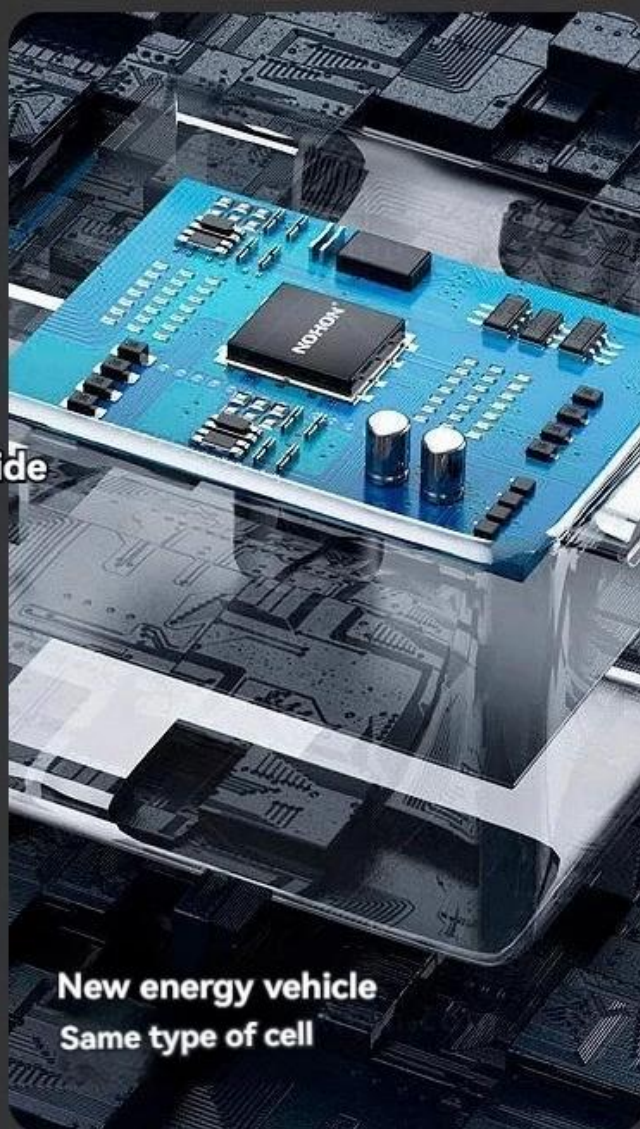

High speed motor

Three-stage pressurization air guide system

Smart chip security protection

**New energy vehicle
Same type of cell**

It can also be used at night

**The blue one.
With LED light**

01 Easily fit in bag
Easy to fit in your bag

02 Smaller than a cell phone
Smaller than a cell phone

1st gear

Rotational speed

$21000 \pm 10\% \text{RPM}$

2nd gear

Rotational speed

$30000 \pm 10\% \text{RPM}$

3rd gear

Rotational speed

$42000 \pm 10\% \text{RPM}$

4th gear

Rotational speed

$100000 \pm 10\% \text{RPM}$

13 pressurizing fan blades

Pressurized fan blades

Lengthen the air inlet

Lengthen the air intake channel

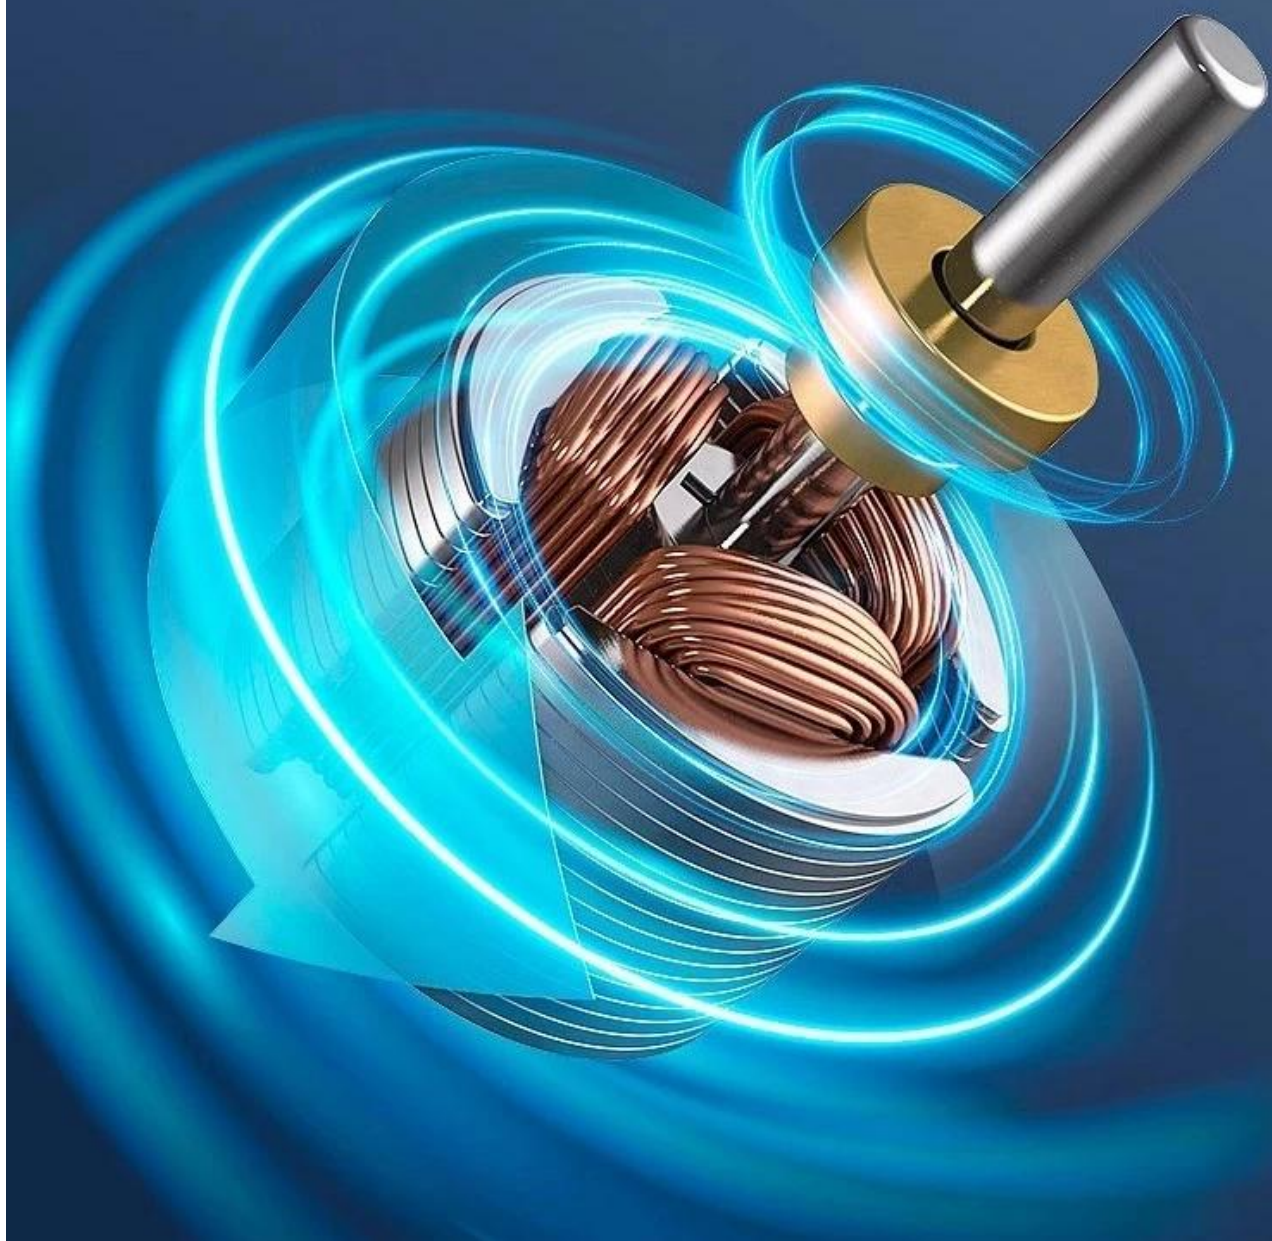

Comfortable
elevation.
Superior
appearance

15° facial Angle

All proper benefits

**High speed
brushless motor.
Strong wind output**

Multi-functional. Adapt to various scenarios

Electronic dust collector

Dust off laptop and computer case keyboards, etc

turbofan

High RPM turbofan
fast. Cool food

Outdoor barbecue

At the outdoor barbecue
Blow the air when
the carbon fire starts
