

BST-495 3 camada filtro de Escape Industrial Purifing Instrumento de Solda de Fumaça Extrator para Máquina de Separação A Laser

Descrição do Produto

- 1. Absorve e remove rapidamente os gases tóxicos liberados durante a soldagem.
- 2. Pacotes exclusivos de filtro de ar com resistência mínima ao ar, maior poder de sucção que garante excelente ambiente de trabalho.

Especificação

Entrada de energia :	110V / 220V
Tipo do motor:	Escova autocopiativa
Material:	Plástico ABS
Peso:	1,45Kg
Embalagem:	6sets uma caixa
Tamanho da caixa:	53 * 28 * 62 cm
Peso da caixa (G.W.)	11kg

Visão geral do produto

Product Usage

MODEL	BST-495
POWER	150W
OUTPUT VOLTAGE	ac220v-110v
WEIGHT	15kg
BODY SIZE	285 * 245 * 345mm

▼ CHARACTERISTICS

This smoker has three layers of filter, which is used in various fields with too much smoke. The volume of smoke can be adjusted freely, the power is large, and the service life is long

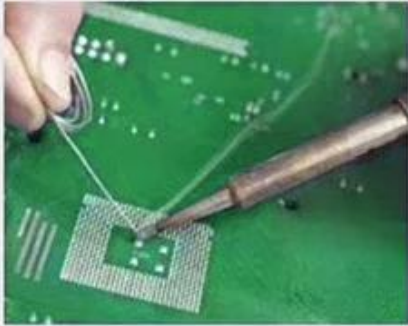

PRODUCT INFORMATION

ACTIVATED CARBON FILTRATION

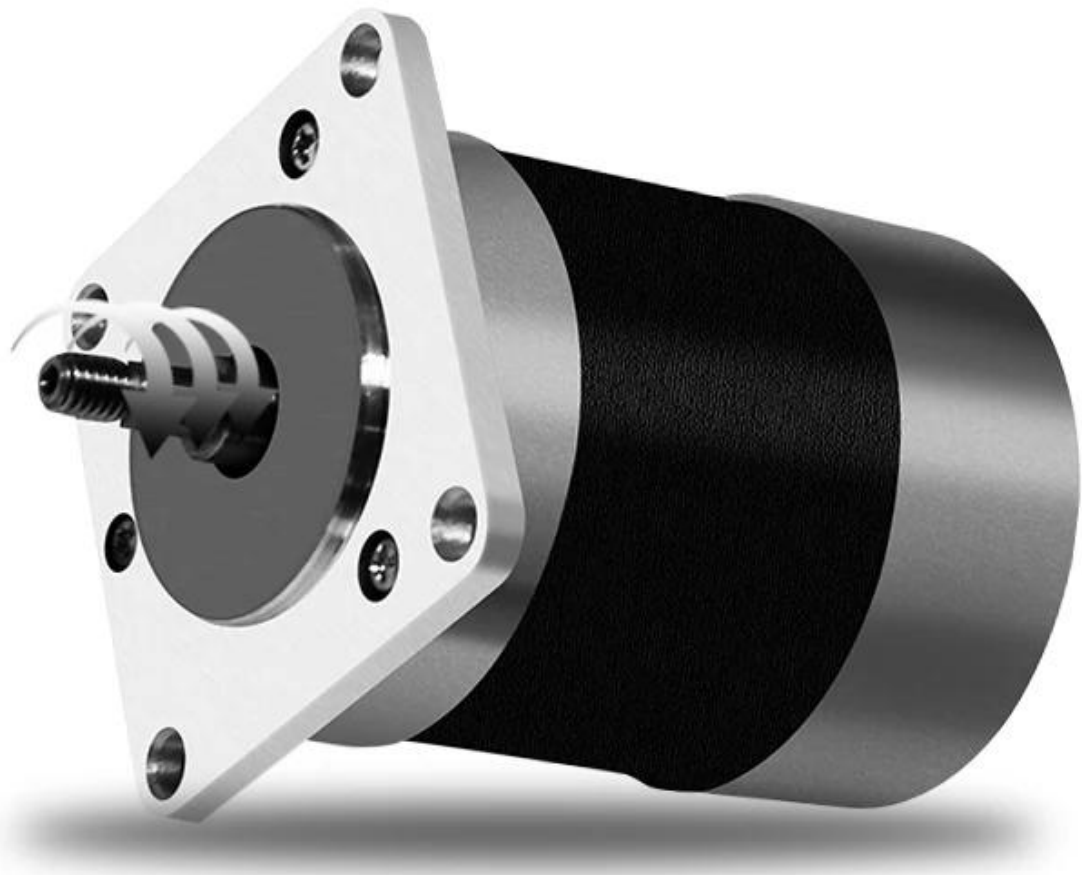

WELDING PURIFICATION

APPLICABLE TO VARIOUS FIELDS

DC brushless motor, stable performance, long life

Brushless Motor

Eliminate smoke and odor

long life

Power saving

MULTI-LAYER FILTRATION

Filtering PM60

Filtering PM0.3

Filtering smoke

PRODUCT SIZE

Operation instructions

Turn on the power switch (such as P1), adjust the speed control knob to make the machine work according to the required air volume, and turn the knob to "off" to stop the machine, Turn to "on" position to start, turn to "Max" position to reach the maximum value (such as P2)
