

Pasta de solda Solda BGA Flux para soldar ferramenta de solda de solda Reparação de reparação

Descrição do produto

100% nova alta qualidade!

O fluxo do telhado é usado para promover a soldagem.

Pode ser limpo e impedido de metal oxidante, produzindo assim uma forte e persistente conexão mecânica e elétrica.

Também pode ser usado como um agente molhante, aumentando a eficiência do fluxo de solda e processo de soldagem.

Adequado para telefones celulares, cartões de PC e outra soldagem de fluxo de nível de chip eletrônica de precisão.
