

Accessory parameters

(Unit: mm)

Multifunctional Industrial electric drill

25 gear adjustment

Eight core upgrades

25 gears
Torque adjustment

Three-jaw self-locking

Hardened gear

Impact function

Steering adjustment

Stepless speed regulation

Pure copper motor

Long use time

Can be applied to various venues

·Tighten the screws

·wood

·Steel

·Concrete

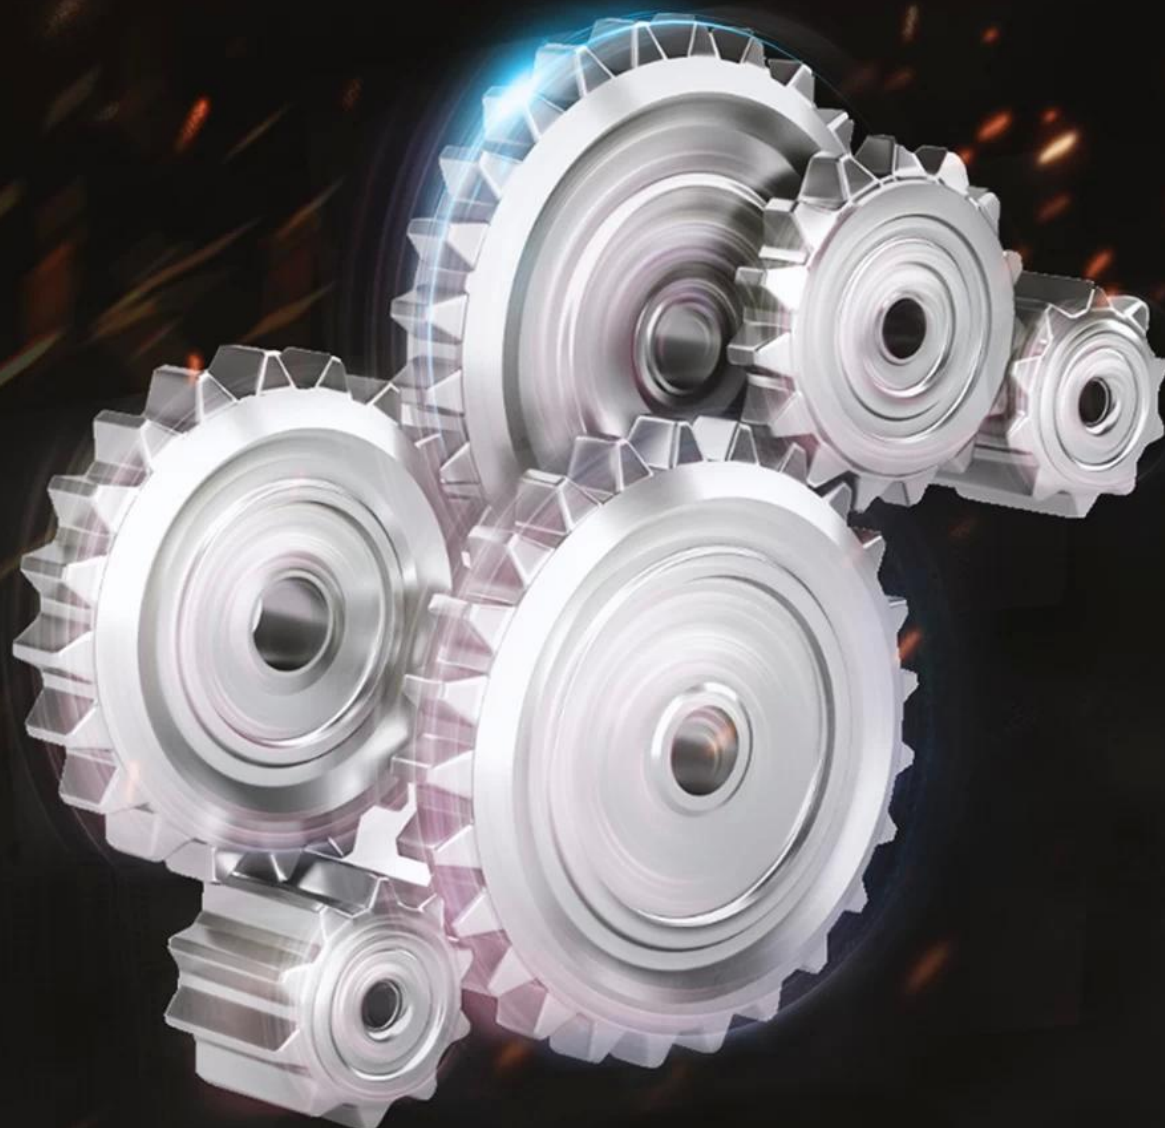

- High-power pure copper motor
- Powerful three-dimensional heat dissipation

Alloy forged steel gear

Secondary quenching, higher strength.

Two speed adjustment

one machine multi-function 25+3 torque

·1st gear low speed suitable for screwing

·2 speed high speed for drilling

Forward and reverse rotation can be switched at one touch

...

**LED lighting
can work in dark environment**

Forward

Reverse

The speed varies according to the press

Three functions easily switch

IMPACT

FLAT DRILL

START SCREW

Large capacity lithium battery

Can work for a long time

Configuration resolution

Turn the chuck counterclockwise to close

Turn the chuck clockwise to open

Product parameters

Brand	BESTOOL	Model	18V
Torque	28~35N·M	Gear	25+3
Motor	Pure copper motor	Rotating speed	0~1350r/min
Features	Impact, Flat drill, Start screw	Carbon brush	Integrated copper powder carbon brush
Battery	4*1500mA lithium battery	Clamping capacity	0.8mm~10mm

*Manual measurement may have 1~2cm error

200mm

220mm

G.W.:2.05kg
