

BEST NEW 3M 9080 Transparent double-sided tape 2 mm. - 10 mm. 50 mm. - 100 mm.

9080 Transparent double-sided tape

9080 Transparent double-sided tape is a high-strength, clear adhesive tape used for bonding and mounting applications.

Ultrathin 9080 Transparent double-sided tape is available in various thicknesses and widths.

Applications include bonding, mounting, and repair of electronic components, LCDs, and other sensitive surfaces.

9080 Transparent double-sided tape is used for bonding and mounting of LCDs, electronic components, and other sensitive surfaces.

Applications:

Mounting of electronic components

Bonding of sensitive surfaces

Thickness: 0.2 mm., 0.3 mm., 0.4 mm., 0.5 mm., 0.6 mm., 0.7 mm., 0.8 mm., 0.9 mm., 1 mm.

Width: 5000cm

Length: 120 meters

Weight: 80 grams

Color: Clear

9080 Transparent double-sided tape

Customizable

Name:	3M9448 Transparent double-sided tape		
Thickness:	0.150 mm	Colour:	Transparent
Temperature resistance:	100°	Weight:	3mm/27G 6mm/101G
Material:	Non-woven substrate Acrylic glue		
Size:	Length:50M Width:customizable		

Features:

1. The acrylic acid pressure sensitive adhesive is applied on both sides of the non-woven substrate.
2. can be die cut.
3. can tear.
4. high temperature resistance.
5. The 3M trademark is printed on the release paper.

Strong viscosity

The tape will work better after 24 hours of sticking, and the longer the sticking time, the stronger the stickiness.

Safe, non-toxic and non-corrosive,

Strong viscosity, waterproof and moisture proof,
High temperature resistance, good resilience,
Easy to use, wide range of applications
