

LEAD-FREE SOLDER WIRE

Product Usage

| | |
|----------------|----------------|
| ALLOY | Sn99.3 / Bi0.7 |
| N.W. | 40g |
| WIRE DIAMETER | 0.4 / 0.8mm |
| PACKAGING SIZE | 54.99x27.44mm |
| PRODUCT TYPE | Tin wire |
| COLOPHONY | 2.0 |

▼ CHARACTERISTICS

This product can be used for welding various products. It has 99.3, Tin wire is lead-free and environmentally friendly. percent high purity tin, low melting point, fast welding, good fluidity, neat coiling and smooth surface...

PRODUCT INFORMATION

SMOOTH SURFACE AND EVEN DISTRIBUTION OF ROSIN IN THE LINE

GOOD RESISTENCE, NEAT WINDING

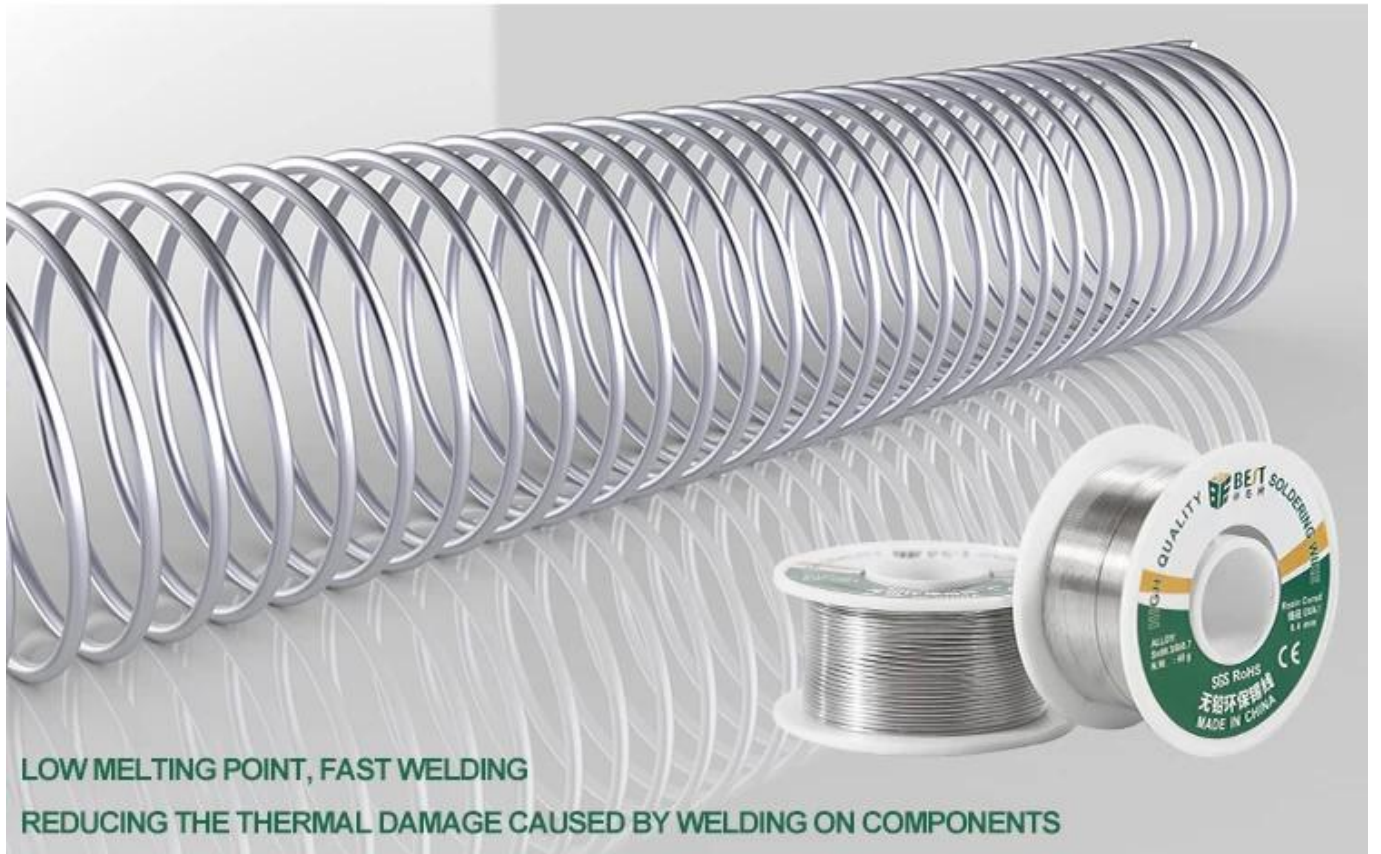

Tin wire is lead-free and environmentally friendly.
Less residue after welding, the welding area is bright with
electrical performance is excellent.

CAN BE USED FOR WELDING A VARIETY OF PRODUCTS

LOW MELTING POINT, FAST WELDING

REDUCING THE THERMAL DAMAGE CAUSED BY WELDING ON COMPONENTS

PRODUCT SIZE

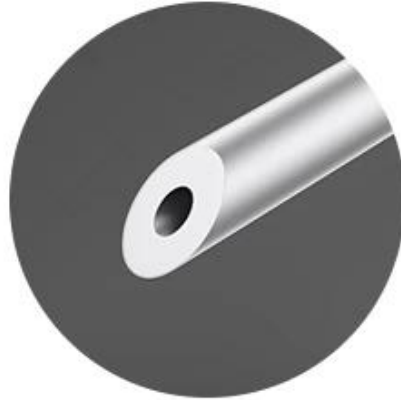

54.99mm

27.44mm

Wire diameter 0.4mm

Wire diameter 0.8mm
