

# 863 heat gun nozzle

Stainless steel material, 3 specifications optional  
high temperature resistance

Original  
Assembly

Durable  
material

Safety and  
environmental protection

Quality  
assurance

## High temperature resistant inclined heating gun nozzle

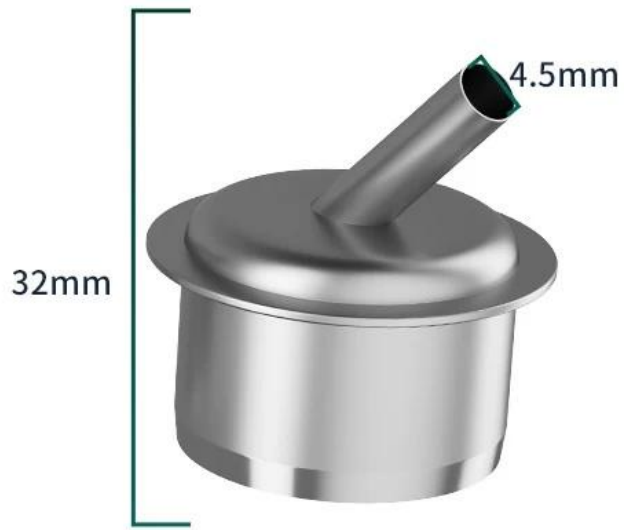

Precision components can be applied

|         |                 |                 |     |
|---------|-----------------|-----------------|-----|
| product | heat gun nozzle | Nozzle diameter | 6mm |
| high    | 33mm            | weight          | 6g  |

4.5mm (round hole)

|         |                 |                 |       |
|---------|-----------------|-----------------|-------|
| product | heat gun nozzle | Nozzle diameter | 4.5mm |
| high    | 32mm            | weight          | 6g    |
