PRODUCT PHOTOGRAPH

Model: BST-936D Weight: 1.8kg

Name: Anti-static constant temperature soldering iron

1. Using anti-static design, to prevent electrostatic damage delicate SMD components;

2. Soldering iron handle circuit board with double-sided PCB design to prevent adverse effects of contact work, quality assurance, long service life;

3. The use of low-voltage power supply, can effectively protect the safety of sensitive devices and staff;

4. Rapid heating, fast temperature compensation, temperature control accuracy, stability, effectively avoid the welding joints Weld, fake welding;

5. Added 5V2A USB output interface, rechargeable mobile phone;

PRODUCT PACKAGING

Packing box size : L310*W175*H115

Weight : 1.8kg

❶ 936D ❷ Iron handle

❸ Temperature sponge

❹ Iron handle frame

❺ power cable

❻ Manual

❼ Box
